PLANNING STAFF REVIEW

• **Proposed Request Details**

The site plan accompanying this petition contains the following provisions:

- Maximum of 32 single family attached dwelling units.
- Units will be accessed via an internal driveway off East 36th Street.
- Units with primary frontage along a public street shall have no garages oriented towards the public street.
- All buildings will be limited to three stories and 45 feet in height.
- Exterior building materials consist of fiber cement panel/siding and brick veneer. Vinyl is prohibited as an exterior building material except for windows, soffits, garage doors, fences and handrails.
- Building elevations provided.
- An eight-foot wide planting strip and eight-foot wide sidewalk will be provided along the site's frontage on East 36th Street and Holt Street. Sidewalks and planting strips may meander to save existing trees.
- A 10-foot landscape buffer that may be reduced to eight feet in width with a wall will be established along the rear and west property lines.
- Providing a concrete waiting pad for the existing CATS bus stop located at the corner of East 36th Street and Holt Street.
- Petitioner will donate a minimum allowance of \$7,500 to the Art and Science council for the neighborhood for the purposes of installation and purchase of public art. This art may be free standing or integrated within the East 36th Street frontage of the site but will not be used for advertisement purposes.

• **Public Plans and Policies**

- The *Central District Plan* (1993) recommends multi-family uses for this site, as amended by Petition 2015-89, which allowed 51 multi-family dwelling units, at a density of 37.7 units per acre.

• **TRANSPORTATION CONSIDERATIONS**

- This site is located at the unsignalized intersection of a minor thoroughfare and a local street. The site plan adds an eight-foot sidewalk and eight-foot planting strip to the existing two

travel lanes, bike lanes, and on-street parking on 36th Street. CDOT has not identified any negative impacts to the transportation facilities in the area.

- **Vehicle Trip Generation:**
 - Current Zoning:
 - Existing Use: 290 trips per day (based on 27 existing multi-family dwelling units).
 - Entitlement: 430 trips per day (based on 51 multi-family dwelling units).
 - Proposed Zoning: 240 trips per day (based on 32 single family attached dwelling units).

DEPARTMENT COMMENTS (see full department reports online)

- **Charlotte Area Transit System:** No issues.
- **Charlotte Department of Neighborhood & Business Services:** No comments received.
- **Charlotte Department of Solid Waste Services:** No issues.
- **Charlotte Fire Department:** No issues.
- **Charlotte-Mecklenburg Schools:** The development allowed under the existing zoning would generate 23 students, while the development allowed under the proposed zoning will produce one student. Therefore, the net increase in the number of students generated from existing zoning to proposed zoning is zero students.
 - The proposed development is not projected to increase the school utilization (without mobile classroom units) over existing conditions:
 - Highland Renaissance Elementary remains at 97%;
 - Martin Luther King, Jr. Middle remains at 101%; and
 - South Mecklenburg High remains at 129%.
- **Charlotte-Mecklenburg Storm Water Services:** No issues.
- **Charlotte Water:** Charlotte Water has water system availability for the rezoning boundary via an existing eight-inch water distribution main located along East 36th Street and an existing six-inch water distribution main located along Holt Street. Sewer availability is provided via an existing eight-inch gravity sewer main located along East 36th Street.
- **Engineering and Property Management:** No issues.
- **Mecklenburg County Land Use and Environmental Services Agency:** No issues.
- **Mecklenburg County Parks and Recreation Department:** No issues.
