PLANNING STAFF REVIEW

- **Proposed Request Details**
This is a conventional rezoning petition with no associated site plan. The proposed rezoning will allow all uses permitted within the I-2 (general industrial) district. However, due to the size of the parcel and the street classification on which the parcel is located, many of the more intense industrial uses will not be feasible.
- **Existing Zoning and Land Use**
 - The site is currently developed with a house built in 1964. The sites located north and east were rezoned in 2012 and 2013 to I-2 (general industrial) and I-2(CD) (general industrial, conditional). Within the immediate area there is a mix of uses including primarily industrial, office/warehouse, retail and undeveloped acreage on properties zoned a variety of districts, as well as a limited amount of residential.
- **Rezoning History in Area**
 - Approval of rezoning petition 2013-057 rezoned approximately 1.59 acres on the north side of Odum Avenue between Centre Street and Idaho Drive from I-1 (light industrial) to I-2 (general industrial) to allow all uses as permitted in the I-2 (general industrial) district. Due to the size of the parcel, the street classification on which the parcel is located and the proximity to residential uses, many of the more intense industrial uses would not be feasible.
 - Approval of rezoning petition 2012-047 rezoned abutting acreage containing 6.3 acres from I-1 (light industrial) to I-2(CD) (general industrial, conditional) in order to allow a resource recovery center, prohibiting many heavy industrial uses allowed in the I-2 district.
- **Public Plans and Policies**
 - The *Central District Plan* (1993) recommends industrial land uses for this site.
 - This petition is consistent with the *Central District Plan*.
