DEVELOPMENT STANDARDS

- I. Permitted Uses
 1. The Site may be devoted only to a residential community containing a maximum of 129 single-family attached dwelling units and any incidental and accessory uses relating thereto that are permitted in the N-2-A zoning district.
- II. Transportation
 1. Rocky River Rd Road ROW: The Petitioner will dedicate ROW 55' from CL for Rocky River Road in fee simple conveyance, in accordance with note II(8) below.
 2. Rocky River Rd Road Improvements: The Petitioner will widen the pavement to 35' from CL and shall provide an 8' planting strip and 12' multi-use path along the project's Rocky River Rd frontage.
 3. John Russell Rd ROW: The Petitioner will dedicate ROW 39' from CL for John Russell Rd in fee simple conveyance, in accordance with note II(8) below.
 4. John Russell Rd Road Improvements: The Petitioner will widen the pavement to 19' from CL and shall provide an 8' planting strip and 12' multi-use path along the project's John Russell Rd frontage.
 5. Unless stated otherwise herein, the Petitioner shall ensure that all transportation improvements are substantially completed prior to the issuance of the Site's third (3rd) building certificate of occupancy.
 6. Internal public streets shall meet CLDSM standards for residential wide (U-03).
 7. Petitioner agrees to curb ramp improvements on the project side at the intersection of John Russell Road and Rocky River Road.
 8. Petitioner agrees to extend a 6' sidewalk from the project's NE corner along John Russell Rd, to connect to the existing John Russell Rd sidewalk.
 9. Petitioner agrees to coordinate with NCDOT and CDOT re: milling/overlay areas where roadway improvements related to this project are constructed.
 10. Final locations of proposed stub connection(s) shall be coordinated with the City of Charlotte Subdivision Services.
 11. A Right-of-Way Encroachment Agreement is required for the installation of any non-standard item(s) (irrigation systems, decorative concrete pavement, brick pavers, etc.) within a proposed/existing City-maintained street right-of-way by a private individual, group, business, or homeowner's/business association. An encroachment agreement must be approved by CDOT prior to construction/installation. Contact CDOT for additional information concerning cost, submittal, and liability insurance coverage requirements.
 12. The Petitioner shall dedicate and convey in fee simple all rights-of-way to the City before the site's first building certificate of occupancy is issued. CDOT requests rights-of-way set at 2' behind back of sidewalk where feasible.
 13. All public roadway improvements will be subject to the standards and criteria of CDOT and NCDOT, as applicable, to the roadway improvements within their respective road system authority. It is understood that such improvements may be undertaken by the Petitioner on their own or in conjunction with other development or roadway projects taking place within the broad north eastern Mecklenburg area, by way of a private/public partnership effort or other public sector project support.
- III. Environmental Features
 1. The petitioner shall comply with the City of Charlotte Post Construction Stormwater Regulations (UDO Article 25).
 2. The petitioner shall comply with the Charlotte City Council approved and adopted Post Construction Stormwater Ordinance. The location, size, and type of storm water management systems depicted on the Rezoning Plan are subject to review and approval as part of the full development plan submittal and are not implicitly approved with this rezoning. Adjustments may be necessary in order to accommodate actual storm water treatment requirements and natural site discharge points.
 3. As part of the code-required planting plan, Petitioner will ensure the Site has internal tree plantings (including parking trees, internal trees, and non-code required trees) totaling a minimum equivalent of 40' spacing along the total measured centerlines of internal private alleys and streets (e.g. 2000 linear feet internal alley centerline = 50 internal trees minimum to be planted).
- IV. Design Standards
 1. Prohibited Exterior Building Materials: concrete masonry units not architecturally finished.
 2. Meter banks shall be located outside of the setback and screened from view from all public rights-of-way and abutting properties.
 3. Pitched roofs, if provided, shall be symmetrically sloped no less than 4:12, except that roofs for porches and attached sheds may be no less than 2:12, unless a flat roof architectural style is employed.
 4. Stoops may be covered but shall not be enclosed. Usable front porches, when provided, should be covered and be at least 6 feet deep. Stoops should be at least 4 feet deep.
 5. For all units, Petitioner shall provide blank wall provisions that limit the maximum blank wall expanse to twenty (20) feet on all building levels, including but not limited to doors, windows, awnings, material or color changes, and/or architectural design elements.
 6. For all corner/end units that face a public street shall provide blank wall provisions that limit the maximum blank wall expanse to 10 feet on all building levels.
 7. Garage doors proposed along public or private streets should minimize the visual impact by providing additional architectural treatments such as translucent windows or projecting elements over the garage door opening.
 8. All garages shall be 2-car garages.
 9. Townhouse and Attached Single Family buildings fronting public or private network-required streets should be limited to 5 individual units or fewer.
 10. To provide privacy, all residential entrances within 15 feet of the public sidewalk shall be raised or lowered a minimum of 12 inches.
 11. Publicly accessible open space shall be a dynamic and programmable open space centrally accessible to neighborhood residents that provide a layering of activities designed for multiple users. To accomplish this, the design of the open space shall consist of four (4) or more of the following potential components:
 - 1. Enhanced plantings in excess of minimum planting standards required of the ordinance.
 - a. Enhanced plantings may take the form of trees and/or planting beds (standard, raised and/or terraced with native species).
 - 2. Specialty paving materials (not including standard finished concrete or asphalt)
 - 3. Shading elements such as shade structures or additional trees planted in a manner to provide consistent shade in the space.
 - 4. Seating options that include moveable tables and chairs. Other seating elements to be considered include seating walls and immovable benches.
 - 5. Consist of a minimum dimension of 20 feet or more measured in all directions.
 7. Decorative lighting elements that include uplighting of trees or other open space elements and additional ambient lighting elements to enhance the experience of the space.
- V. Binding Effect of the Rezoning Documents and Definitions
 1. If this Rezoning Petition is approved, all conditions applicable to development of the Site imposed under the Rezoning Plan and these Development Standards will, unless amended in the manner provided under the Ordinance, be binding upon and inure to the benefit of the Petitioner and subsequent owners of the Site and their respective successors in interest and assigns.
 2. Throughout these Development Standards, the terms "Petitioner" and "Owner" or "Owners" shall be deemed to include the heirs, devisees, personal representatives, successors in interest and assigns of the Petitioner or the owner or owners of any part of the Site from time to time who may be involved in any future development thereof.

This Plan Is A Preliminary Design. NOT Released For Construction.
