**STAFF
RECOMMENDATION**

Staff recommends approval of this petition.

Plan Consistency

The petition is **inconsistent** with the 2040 Policy Map recommendation for Neighborhood 2 Place Type.

Rationale for Recommendation

- The petition proposes a mix of commercial land uses that have the potential to promote access to employment opportunity.
- The subject property is in an Access to Essential Amenities, Goods & Services gap. Access to essential amenities, goods and services is a high priority need in this area, and the proposal for 31,500 square feet of retail space has the potential to improve access.

- The subject property is not located within ½ mile walkshed of a high-capacity transit station or major transportation corridor.
- The petition installs a 12-foot multi-use path along the site's frontages to add to the pedestrian infrastructure in the area.
- The petition could facilitate the following *2040 Comprehensive Plan* Goals:
 - 1: 10 minute Neighborhoods
 - 8: Diverse & Resilient Economic Opportunity

The approval of this petition will revise the recommended place type as specified by the *2040 Policy Map*, from Neighborhood 2 Place Type to a Commercial Place Type for the site.
