**STAFF
RECOMMENDATION**

Staff recommends approval of this petition upon resolution of requested technical revisions related to site and building design.

Plan Consistency

The petition is **inconsistent** with the single family up to 4 dwelling units per acre for this site as per the *Northwest District Plan* (adopted).

Rationale for Recommendation

- The proposed rezoning to NS (neighborhood services) which proposes neighborhood services, a police station and emergency

services for this site, is compatible with the single-family land use recommendation for the site and surrounding area.

- Police Stations and emergency services are complimentary uses for single-family residential areas, especially when the site is located along a major thoroughfare such as Mt. Holly – Huntersville Road, as they provide protection for the residents near the site
- Fire Station #33 is located 700 feet from this site, on Mt. Holly-Huntersville Road.
- The petition would contribute to multimodal mobility in the area by providing an 8’ planting strip and 12’ multi-use path along the site’s Mt. Holly-Huntersville Road frontage.

The approval of this petition will revise the adopted future land use as specified by the *Northwest District Plan*, from current recommended single-family up to 4 DUA land use to institutional land use for the site.
