STAFF RECOMMENDATION

Staff recommends approval of this petition.

Plan Consistency

The petition is **consistent** with the 2040 Policy Map recommendation for the Manufacturing & Logistics Place Type.

Rationale for Recommendation

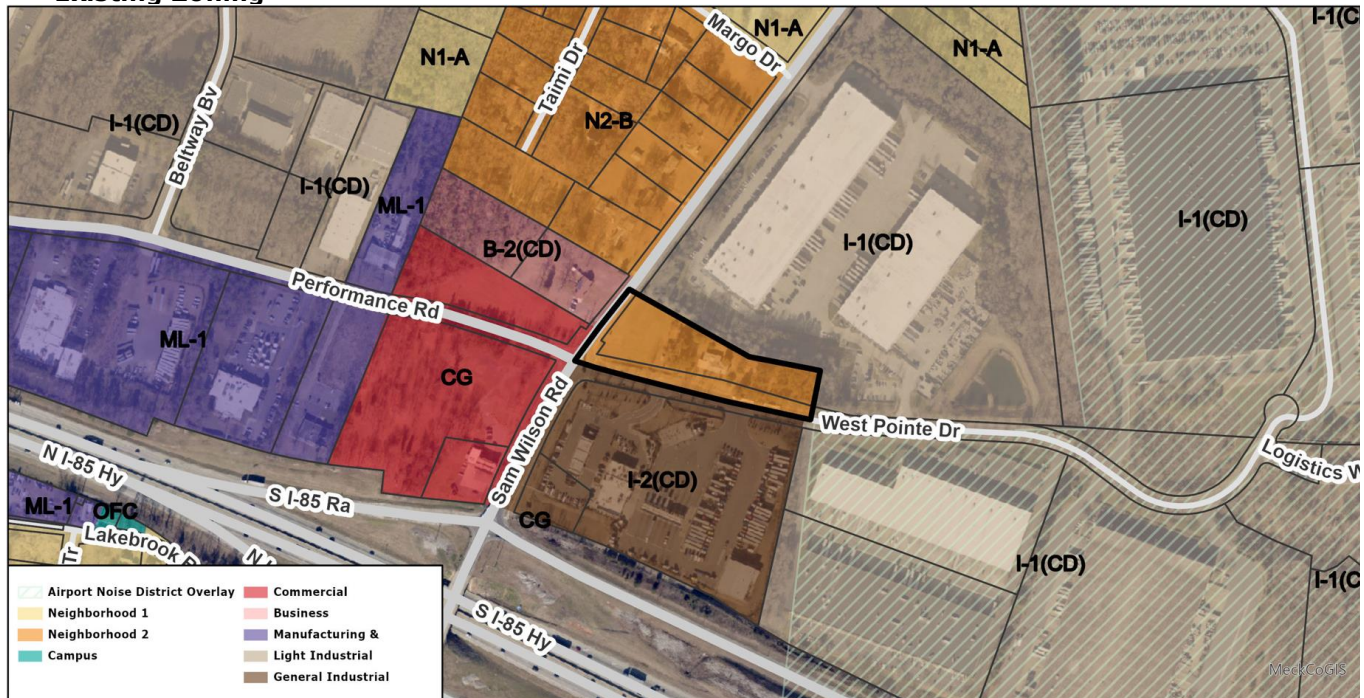

- The petition would align the site's zoning with adopted policy.
- The surrounding land uses, with industrial uses to the north and heavy commercial uses to the south, make this location more suitable for uses permitted in the ML-1 district than those allowed currently entitled in the N2-B district.
- The subject property is the only property with access to West Pointe Drive that is not zoned for manufacturing and logistics uses.
- The petition could facilitate the following 2040 Comprehensive Plan Goals:
 - 8: Diverse & Resilient Economic Opportunity

• TRANSPORTATION SUMMARY

- The site is located at the intersection of West Pointe Drive, a State-maintained local street, and Sam Wilson Road, a State-maintained minor arterial. A Comprehensive Transportation Review (CTR) is not necessary for the complete review of this petition due to the conventional rezoning. A CTR will be required during permitting if the site generates site trips over ordinance thresholds. The site will be subject to transportation improvements in accordance with the UDO and the

adopted CDOT Streets Map. CDOT will work with the petitioner during the permitting process to pursue all options to provide additional forms of connectivity that reflect the types of development associated with this place type and zoning district.

- **Active Projects:**
- No active projects near the site.
- **Transportation Considerations**
- No outstanding issues.
- **Vehicle Trip Generation:**

Current Zoning:

Existing Use: 10 trips per day (based on one single family dwelling unit).

Entitlement: A wide range of trips could be generated by the entitled conventional district.

Proposed Zoning: Trip generation will be determined at the time of permitting based upon the specific uses proposed.
