

Petition 2022-001 by White Point Partners

To Approve:

This petition is found to be **consistent** and **inconsistent** with the *2040 Policy Map* (2022) based on the information from the staff analysis and the public hearing, and because:

- The *2040 Policy Map* (2022) recommends the Community Activity Center Place Type; and
- The Neighborhood 1 Place Type is also recommended for the site.

However, we find this petition to be reasonable and in the public interest, based on the information from the staff analysis and the public hearing, and because:

- The site is within a 1-mile walk of the Scaleybark Station.
- The TOD-NC district may be applied to parcels within a 1-mile walking distance of an existing rapid transit station or within a 1-mile walking distance of an adopted Metropolitan Transit Commission (MTC) alignment station location.
- Immediately adjacent to the site are a number of parcels zoned TOD-NC, representing an ongoing shift in this area to more transit-supportive redevelopment projects.
- Though a portion of the rezoning site is inconsistent with the recommended Neighborhood 1 Place Type, the parcels immediately abut areas under the Community Activity Center Place Type on two sides and the area is very near the major transit corridors in lower South End.
- The use of conventional TOD-NC zoning applies standards and regulations to create the desired form and intensity of transit supportive development, and a conditional rezoning is not necessary.
- TOD standards include requirements for appropriate streetscape treatment, building setbacks, street-facing building walls, entrances, and screening.

The approval of this petition will revise the recommended place type for a portion of the site as specified by the *2040 Policy Map* (2022), from Neighborhood 1 to Community Activity Center.
