ZONING COMMITTEE DISCUSSION

Staff provided a summary of the petition and noted that it is Choose an item. with the *2040 Policy Map*.

Commissioner Harvey stated that he had spoken with members of the Steele Creek community and that they felt engaged with the process and supported the petition.

Commissioner Russell referenced the Charlotte Water notes that stated that the closest sewer main is 750 feet from the property and asked how that connection would be made. Staff replied that most of the site is built out and the connection has likely already be made. Staff identified that the petitioner was present at the meeting if the committee would like to pose that question to them. Zoning Committee voted to suspend the rules to ask the petitioner about the sewer connection. The petitioner stated that all water and sewer services have been connected.
