

REQUEST

Current Zoning: I-1 (light industrial) and I-1(CD) (light industrial, conditional)
Proposed Zoning: TOD-TR (transit oriented development - transit transition)

LOCATION

Approximately 17.02 acres located on the west side of South Tryon Street, south of Blairhill Road, south of Clanton Road, east of Interstate 77.

SUMMARY OF PETITION

The petition proposes to allow all uses in the TOD-TR (transit oriented development-transit transition) on a parcel developed with a health fitness facility and commercial uses located south of Clanton Road between South Tryon Street and Interstate 77.

**STAFF
RECOMMENDATION**

Staff recommends approval of this petition.

Plan Consistency

The petition is **inconsistent** with the *Scaleybark Station Area Plan* recommendation for office, industrial-warehouse distribution for this site.

Rationale for Recommendation

- The subject site is within ½-mile walk of the Scaleybark Transit Station on the LYNX Blue Line.
- Since the adoption of the plan, TOD development has advanced in the direction of this parcel significantly.
- Use of conventional TOD-TR (transit oriented development-neighborhood center) zoning applies standards and regulations to

create the desired form and intensity of transit supportive development, and a conditional rezoning is not necessary.

- TOD (transit oriented development) standards include requirements for appropriate streetscape treatment, building setbacks, street-facing building walls, entrances, and screening.

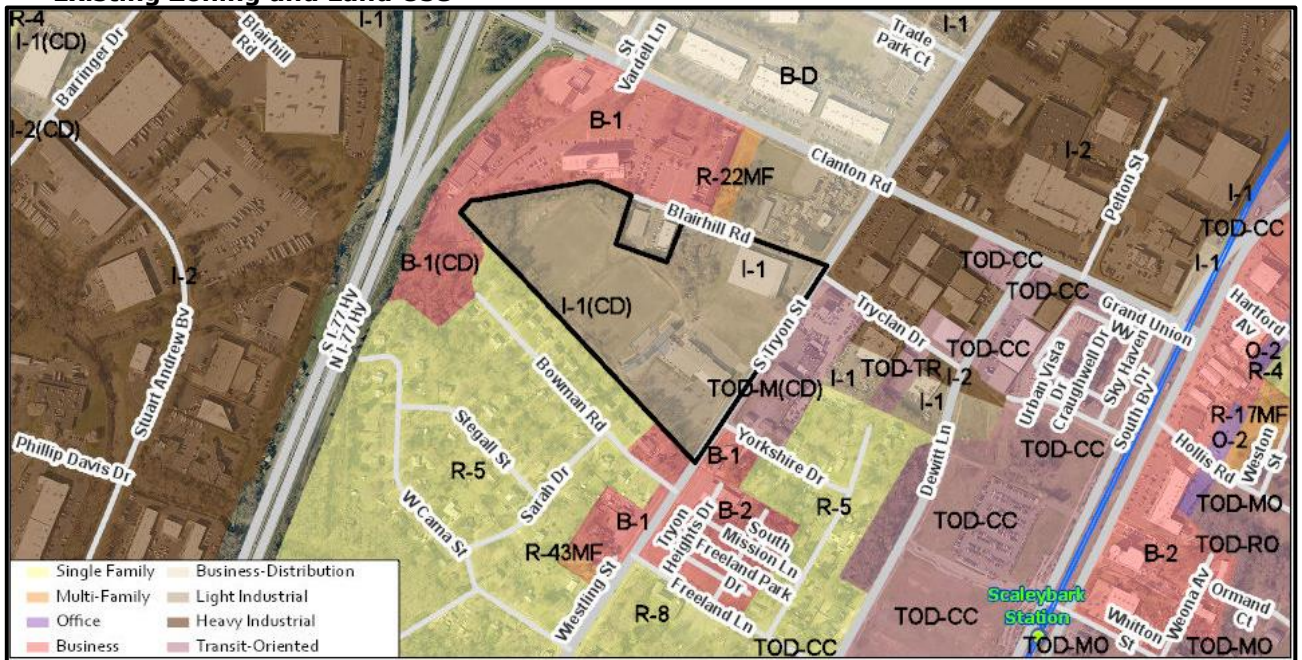

The approval of this petition will revise the adopted future land use as specified by the *Scaleybank Station Area Plan*, from office/industrial/warehouse-distribution to transit oriented development for the site.

PLANNING STAFF REVIEW

• **Proposed Request Details**

This is a conventional rezoning petition, which applies all the standards, regulations and uses in the TOD-TR (transit oriented development-transit transitional) zoning district. Uses allowed in the TOD-TR district include residential, commercial, institutional, and government uses.

• **Existing Zoning and Land Use**

- The site is developed with a fitness facility and commercial uses and is surrounded by a mix of commercial, institutional, office, residential, retail, and warehouse uses in various zoning districts. A portion of the site was rezoned via petition 1973-031 to allow industrial uses.

The site is developed with a health/fitness facility.

The site is developed with commercial uses.

to East are commercial uses.

East are single family homes.

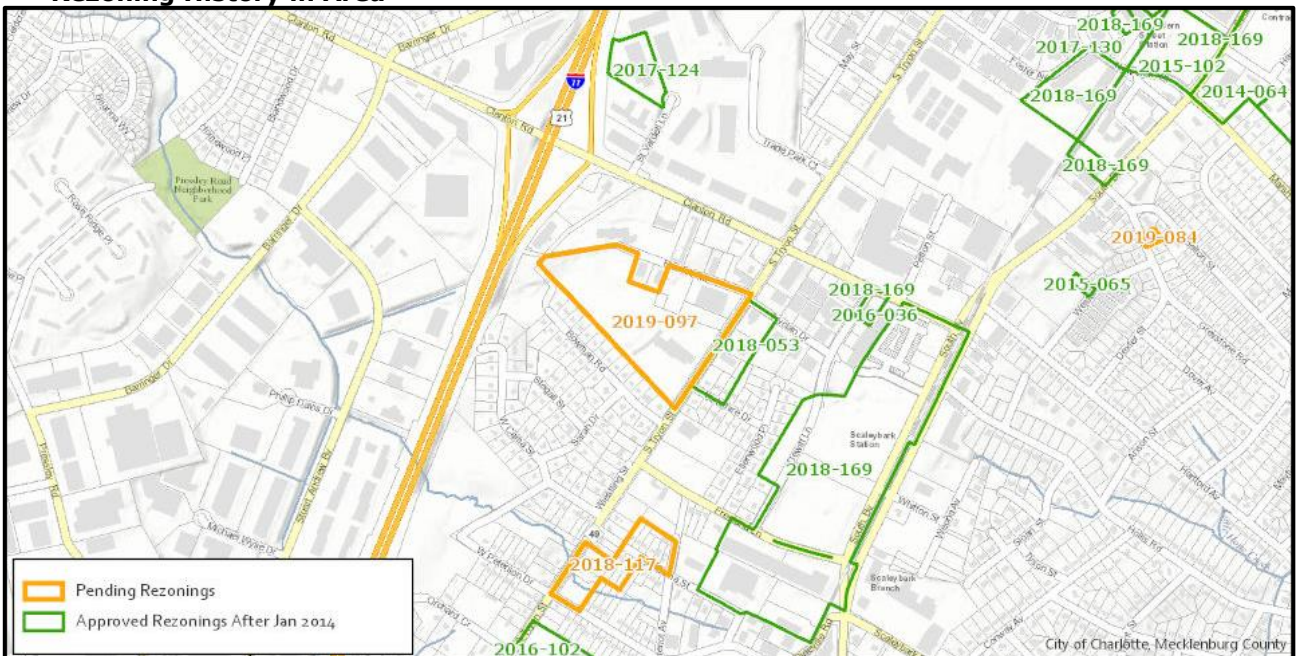

South are single family homes.

North and west are hotels, institutional, retail, and warehouse uses.

• **Rezoning History in Area**

• **Public Plans and Policies**

- The *Scaleybark Station Area Plan (2008)* recommends Office/Industrial-Warehouse-Distribution for this site.

- **TRANSPORTATION CONSIDERATIONS**

- The site is on a major thoroughfare near a signalized intersection. CATS bus routes 12 and 16 run along South Tryon Street and the site is less than ½ mile from the Scaleybark Blue Line Station. The site has existing curb and gutter and back of curb sidewalk along South Tryon Street and Blairhill Road.
- The petitioner previously submitted a traffic study scope. CDOT will work with the petitioner during permitting to design a street network and upgrade the streetscape in accordance with city ordinance to support the transit oriented development requested by the petitioner.
- The South Tryon Corridor Implementation Project is an active project near that site that will implement pedestrian hybrid beacons, bulb-outs, and pavement markings at various locations along South Tryon Street between Clanton Road and Carson Boulevard.
- No outstanding issues.
- **Vehicle Trip Generation:**
Current Zoning:
 - Existing Use: 250 trips per day (based on 47,530 square foot health/fitness club).
 - Entitlement: 250 trips per day (based on 47,530 square foot health/fitness club).
 - Proposed Zoning: 4,730 trips per day (based on 15,000 square feet of retail; 350 apartments; and 160 townhomes).
