STAFF RECOMMENDATION

Staff recommends approval of this petition.

Plan Consistency

The petition is consistent with the *South District Plan* recommendation for single family residential use. The *General Development Policies* support a density of up to six dwelling units per acre.

Rationale for Recommendation

- The petition is consistent with area plan and *General Development Policy* recommendations.
- The proposed R-6 (single family residential) district allows the same uses as the surrounding R-3 (single family residential) district.
- The proposed R-6 (single family residential) district is compatible with the R-3 (single family residential), MX-2 (mixed use) and R-8MF(CD) (multi-family, conditional) zoning in the area.
- The subject property backs up to I-485 to the southeast, and McKee Road to the northeast and northwest and thereby limiting adjacency to lower density residential to one parcel to the southwest.

PLANNING STAFF REVIEW

- **Proposed Request Details**
This is a conventional rezoning petition with no associated site plan.
- **Existing Zoning and Land Use**

- Surrounding properties are developed primarily with single family residential dwellings. The property abuts I-485 to the southeast.

The site is composed of a single family home and vacant land.

Properties north and west of the site, across McKee Road are developed with single family homes.

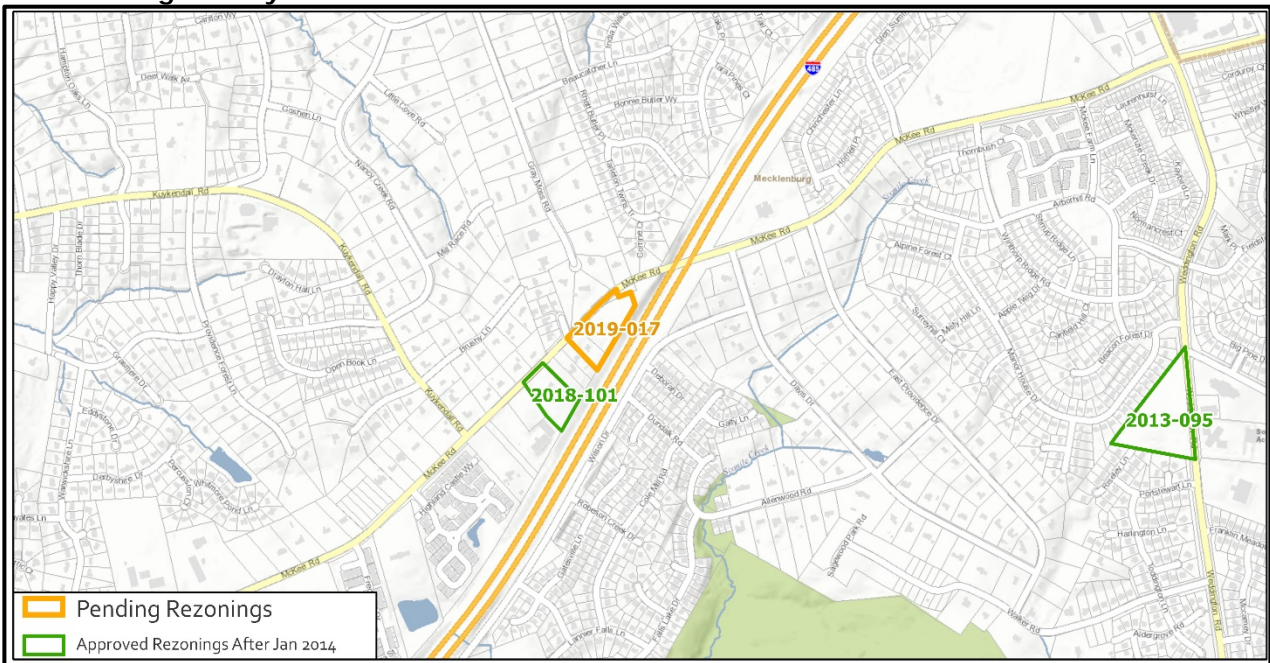

Properties to the south are developed with single family homes.

East of the site is Interstate 485.

• **Public Plans and Policies**

- The *South District Plan* (1993) recommends residential uses up to three dwellings per acre.
- The *General Development Policies* (GDP) provides policy guidance for evaluating proposed residential densities greater than four units per acre. The petition meets the General Development Policies locational criteria for consideration of up to 6 dwellings per acre as illustrated in the table below.

- No outstanding issues.
- **Vehicle Trip Generation:**
 Current Zoning:
 Existing Use: 10 trips per day (based on 1 dwelling).
