**STAFF RECOMMENDATION**

Staff recommends approval of this petition.

Plan Consistency

The petition is **inconsistent** with the *2040 Policy Map (2022)* recommendation for the Neighborhood 1 Place Type.

Rationale for Recommendation

- This petition is appropriate and compatible with the surrounding uses and context of the area as it increases the variety of housing types in the area. Buildings along the northern property boundary, adjacent to Neighborhood

1 Place Types, are limited to triplexes and the proposed buildings along Old Statesville Road are quadraplexes which smooth the transition between the proposed development and the adjacent Neighborhood 1 Place Type.

- The site is located within 1-mile of many Manufacturing & Logistics facilities providing a short commute to employment opportunities.
- The plan commits to providing an 8-foot sidewalk along Old Statesville Road as part of a Mecklenburg County Park and Recreation urban trail and proposes an upgraded CATS bus waiting pad which provides the beginnings of a multi-modal transportation network.
- The site is located along the proposed Lynx Red Line commuter rail and is within  $\frac{3}{4}$ -mile of the proposed Harris Station.
- The site is located along the route of the CATS number 21 local bus route providing transit access to the Charlotte Transportation Center.
- The petition could facilitate the following *2040 Comprehensive Plan* Goals:
  - 2: Neighborhood Diversity & Inclusion
  - 4: Trail & Transit Oriented Development

The approval of this petition will revise the recommended Place Type as specified by the *2040 Policy Map*, from the Neighborhood 1 Place Type to the Neighborhood 2 Place Type for the site.

  - Buildings will incorporate façade articulation of at least 2-feet in depth and provide balconies, bay windows, or other elements to provide variation in the building facades.

• **TRANSPORTATION SUMMARY**

- The petition is located adjacent to Ratcliff Lane, a privately maintained local street, west of Old Statesville Road, a State-maintained major arterial. A Comprehensive Transportation Review (CTR) is required for this site due to the site falling within the low intensity development. Based on the 1,474 daily trips, this will trigger a Tier 1 multimodal assessment. Site plan and/or conditional note revisions are needed to commit to constructing curb and gutter along Ratcliff Lane to meet a residential wide cross-section per Article 33 of UDO and updating and adding conditional notes. The site plan commits to dedicating 49 feet of right of way along Old Statesville Road frontage, committing to constructing bike lane, and constructing Ratcliff Lane to Residential Wide standards per Article 33.
