STAFF RECOMMENDATION

Staff recommends approval of this petition upon resolution of outstanding issues related to site and building design.

Plan Consistency

The petition is **consistent** with the *2040 Policy Map* recommendation for Manufacturing & Logistics place type for the majority of the site and **inconsistent** with the recommendation for Neighborhood 1 place type for a portion of the site.

Rationale for Recommendation

- The majority of the petition site is consistent with the recommended Manufacturing & Logistics place type.
- The petition allows for the expansion of an existing manufacturing and logistics use.

- The petition would resolve a zoning violation while improving the site from current conditions.
- The petitioner acquired property to the south of the site to create a 91' buffer along approximately 2/3 of the southern property boundary.
- The petition could facilitate the following *2040 Comprehensive Plan* Goal:
 - 8: Diverse & Resilient Economic Opportunity

The approval of this petition will revise the recommended place type for a portion of the site as specified by the *2040 Policy Map*, from Neighborhood 1 Place Type to Manufacturing & Logistics Place Type.
