**STAFF
RECOMMENDATION**

Staff recommends approval of this petition.

Plan Consistency

The petition is **inconsistent** with the *University City Area - Blue Line Extension Plan's* (2015) recommendation for office/retail uses as amended by rezoning petition 2017-196.

Rationale for Recommendation

- The petition is generally consistent with the existing development pattern in the area.
- While proposed residential uses are inconsistent with the area plan's recommendation, the petition's reuse of existing structures ensures consistency with the current context.

- The site is less than a ½ mile from the McCullough transit station, which will provide appropriate transportation service for residential development.

The approval of this petition will revise the adopted future land use as specified by the University City Area - Blue Line Extension Plan from office/retail uses to residential/office/retail uses for the site.

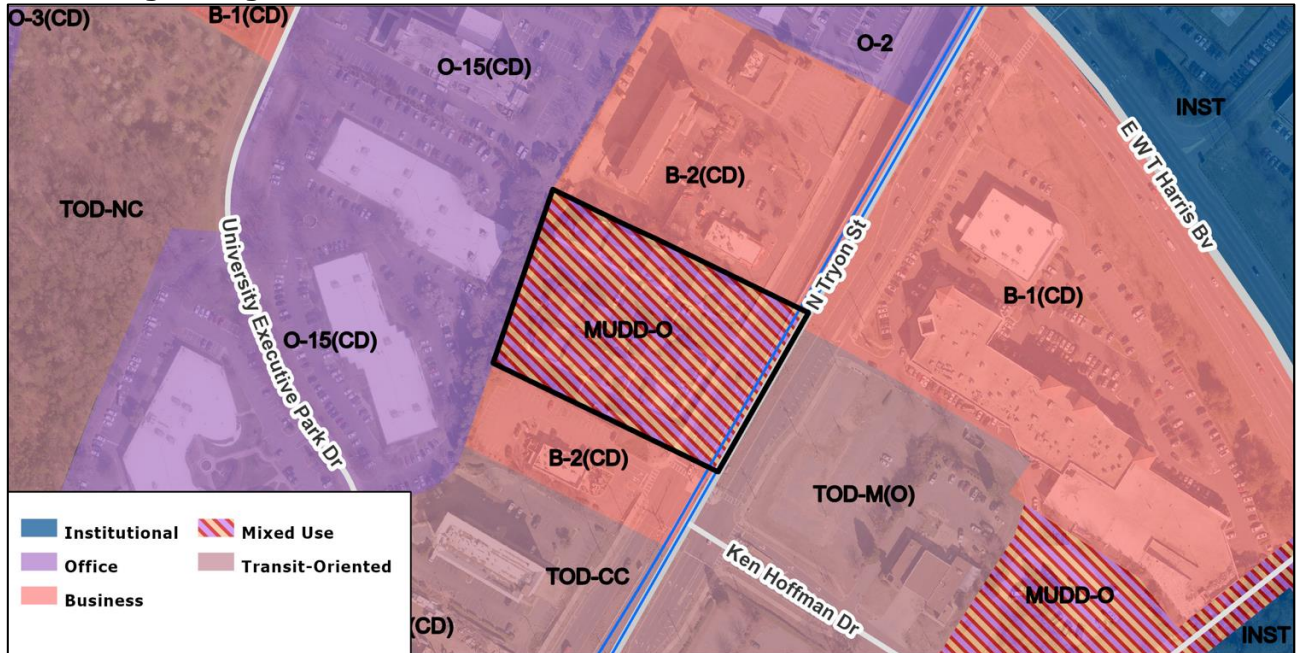

PLANNING STAFF REVIEW

- **Proposed Request Details**

The site plan accompanying this petition contains the following provisions:

- MUDD-O site plan amendment to a previously approved rezoning to allow the following uses in addition to the existing hotel: dormitories for the students of colleges, commercial schools, schools providing adult training and for the staff of hospitals; dwellings, detached, duplex, triplex, quadraplex, attached, multi-family and planned multi-family developments, and mixed use buildings.
- Notes existing building and structures will remain in place.
- Notes no new buildings are proposed and any new construction will require a rezoning.
- Notes minor repairs and alterations may occur subject to the rezoning ordinance.
- Limits number of buildings to 7.
- Limits building height to 34 feet.
- Notes all public roadway improvements will be subject to the standards and criteria of CDOT and NCDOT, as applicable, to the roadway improvements within their respective road system authority. It is understood that such improvements may be undertaken by the Petitioner on its own or in conjunction with other development or roadway projects taking place within the broad north eastern Mecklenburg area, by way of a private/public partnership effort or other public sector project support.
- Requests the following optional provisions:
 - Access to site adjacent rights-of-way, streets and arterials: No change to the access to the site as shown on the site plan is proposed.
 - Property will need to opt out of the loading space requirement.
 - Request to not provide long-term bicycle parking.
 - Opt out of loading/delivery zone as none currently exists. In addition, the existing property does not currently have an enclosure for a recycling container.
 - Opt out of the signage provision of the MUDD-O zoning. Site has an existing ground sign (pole sign) that does not meet the 5-foot height requirement. The height of the existing sign is roughly 37 feet. Sign face is 108" wide by 70" high.

• **Existing Zoning and Land Use**

- The site is developed with a hotel built in 1987 and is surrounded by a mix of institutional, office, residential and retail uses on properties in various zoning districts. The site abuts the Blue LYNX transit line.
- The site was previously rezoned via petition 2017-196, approving the retention of the existing 56,693 square foot hotel use, and eliminating nonconformities resulting from the expansion of North Tryon Street and construction of the Blue Line extension, along with several optional provisions pertaining to delated compliance with access requirements; waiver of the required loading/delivery zone and recycling container; maneuvering requirements; pedestrian circulation; landscaping requirements; and existing pole sign.

The rezoning site is developed a hotel built in 1987.

Across and along N. Tryon are institutional, office, residential, and retail uses.

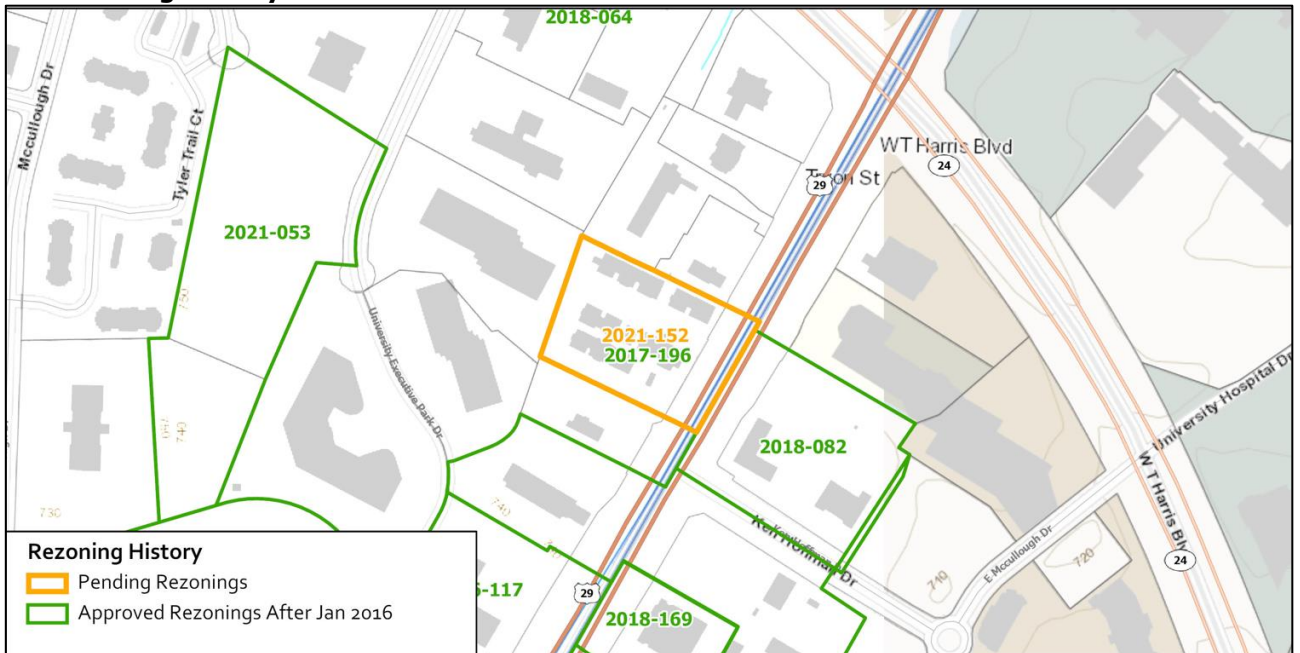

West are office uses.

The parcel is located within 0.18 mile of the McCullough Station on the Blue LYNX transit line.
