Why are you interested in serving on these boards/ committees?

I am interested in city beautification. I have been a part of this board in the past and was an active engaged member. I have been trying for several years to get back into volunteering for this committee. I really enjoyed being a part of helping the city in this way.

Please describe any background or abilities that qualify you to serve on these boards/ committees.

I have a lot of insight to offer as architect and as a C.P.T.E.D. (crime prevention through environmental deign) professional. This is a philosophy that is founded on the belief that city image and proper maintenance can help reduce certain types of unwanted behaviors and crimes.

Although I do not have experience serving on any boards, I feel my work and life experience will allow me to provide a unique and electric perspective. I want to better our community and feel this could be a wonderful opportunity to do so.

Why are you interested in serving on these boards/ committees?

As a social worker, I have an innate drive to advocate for members of my community. I feel that putting policies in place that remove barriers, so individuals and families can better themselves, is part of my calling as a social worker. I want to be apart of something that makes a difference. I believe we are all here to help others, and I think this is the first step I can take to really make an impact. I want to be apart of something that is bigger than myself, for the benefit of others and the city of Charlotte.

Please describe any background or abilities that qualify you to serve on these boards/ committees.

The biggest strength I possess is my ability to communicate with individuals from all walks of life. My close family and friends often describe me as "someone that can talk to a wall." I have held several positions in my life that have also allowed me to develop a skill set that would make me successful in a board/ committee position. These include, but are not limited to; multitasking, strong work ethic, high energy, ability to work on interdisciplinary teams, ability to triage needs/ tasks, strong leadership skills, resilient and positive attitude, and the ability to think outside of the box. My motto is "if there is a will, there is a way," and I do not give up easily.

Other employment history:

From May 2017 to November 2017, I was employed as a contact psychotherapist with a private practice. I decided to resign from this position as I did not feel that company represented my professional and ethical standards. In the future I plan to open my own psychotherapy practice.

Why are you interested in serving on these boards/ committees?

I am interested in volunteering my time to support my community. It has always been a dream to give back to the community. There have been a number of programs that assisted me while growing up. I want to show others that look like me and grew up just as myself in a complicated environment, that he or she can survive and become a great citizen of Mecklenburg County.

Please describe any background or abilities that qualify you to serve on these boards/ committees.

I grew up in Boulevard Homes, which is not another community. I was fortunate enough to learn about employment thru the JTPA program in the 1990's. I became exposed to people who did not live in my community and those were positive role models. I knew from attending an open school that I had a chance to make it. I have learned to have empathy for others and offer support as much as possible. I volunteered with Urban Ministry and their efforts to reduce homelessness. I have volunteered for the city and assisted with projects such as a back to school drive. I have also volunteered for Safe Alliance on West Blvd. I have experience auditing and bookkeeping, analyzing, researching and project management.

I have not served on any city boards yet.

Why are you interested in serving on these boards/ committees?

I am the mother of 2 children, ages 11 and 12, and a proud homeowner in South Charlotte. I am passionate about maintaining environmental and architectural standards within our community. I want to do my part in helping my city to continue to grow, attract new residents and businesses, while fostering respect and love for our surrounding areas from all who live here. I have a love for the great outdoors and our unique urban environment alike. I am always striving to make our home a better place for our family, friends, and neighbors.

Please describe any background or abilities that qualify you to serve on these boards/ committees.

I have a BA in Fine Arts and Art History. I had a longstanding career working for retailers such as Anthropologie and Restoration Hardware when I lived in Seattle and Southern California, developing their visual merchandising standards and creating visual appeal within their retail environments. I am currently the head of my HOA, and serving on the Architectural Committee within my neighborhood, Raintree. As a past resident of an island located in the Puget Sound, across from Seattle, I developed a love for landscaping, gardening, architecture, and ways to juxtapose the two in our environments. I love Charlotte, love the lush landscape, and always have ideas and imagine what could be done to beautify and create enjoyable areas to bring people together.

Why are you interested in serving on these boards/ committees?

I chose Charlotte as a place to live and raise my family. The vision I have of Charlotte's future is what keeps us here and I feel passionately about finding ways to be a part of helping to create that future. For example: As someone who relocated here, I have a keen sense of how others see us and what might be appealing to those considering our city for their business, home or travel. As an avid user of our cities public spaces (biking 75+ miles a week and running 15-20 miles a week on our cities roads and trails) I have strong opinions about how to make those spaces more accessible and desirable for our current and future residents.

Please describe any background or abilities that qualify you to serve on these boards/ committees.

I have over 20 years of technology-driven business leadership experience across many business sectors which can be readily applied to support Charlotte.

Why are you interested in serving on these boards/ committees?

The main purpose for dedicating my time and energy to this Board is my commitment to and strong belief in the continuous development and growth of our city. I have called Charlotte home since 2007. Our city offered me the opportunity to flourish in my career and personal life, including starting a family, building a network of wonderful friends, and creating over time wonderful memories that will forever stay with us. I feel this is the time when I could start giving back to the city that I and my family love.

Please describe any background or abilities that qualify you to serve on these boards/ committees.

I have an extended finance and business background, working for 10+ years for large Fortune 100 global companies, i.e. Lowe's, TIAA, and Honeywell. In addition, I was born and raised in Romania, so I will bring with me an extended experience in living and working in other social and business cultures. I would certainly hope that my vast international exposure and connections would benefit the International Cabinet in its mission to continue to support Charlotte's development and its global profile.

Why are you interested in serving on these boards/ committees?

My dad Willie M smith worked for the city of Charlotte for 30 years until he got hurt on the job with a serious infection. He never gave up until he died he has a role in anything I'm passionate about. Even before he worked for the city of Charlotte he also help to shape and build this city up. He took pride in living here and all the opportunity's to be apart of this county. He shaped and molded me to have the same values as he did. I just want to do my part and continue on with the mark he made for me to carry on. The city has made tremendous accomplishments but there is still more work to be done. My father wasn't given the opportunity to learn to read or write when he was a child, so how can I, his daughter not take an open opportunity to work towards the longevity of this great city. I have been given a chance to inhance the morals and great teachings my father instilled in me, not only did he teach me how to apply these things to my life , he also taught me how to spread it in every aspect of life!

Why are you interested in serving on these boards/ committees?

I'm interested in joining these committees, because as a citizen I believe that my civic duty goes beyond voting during every election cycle. In addition, I am a native Charlottean who grew up inspired by family members that served in the armed forces, Charlotte Mecklenburg School board, Minneapolis Office of Police Conduct Review, and the Atlanta Citizen Review Board. In the short time I've been alive, I've seen so much growth in Charlotte too. I've always desired to take part in Charlotte's growth to help continue to make our city better. I believe that becoming a member of the City Of Charlotte's Boards & Commissions will allow me to contribute on a civic level. While I am young too, I believe that my energy and innovative ideas mixed with those who are more experienced (professionally) , and wiser can bring about great things for these committee.

I believe that I can make a great impact and I would like to be a catalyst used to help the public understand police policies and strategies. Knowledge is power and if both parties understood what it was like to walk in the other's shoes, it might bring about better communication between all parties. I've always wanted to get involved and this seems like the perfect fit for me. Thanks in advance for the consideration.
