Approach to Identifying Performance Measures

◀ Leverage existing measures where possible

- Some plans included performance measures
 - *Ex: Comprehensive Plan, Strategic Energy Action Plan*
- Some information is already being tracked by the department
 - *Ex: Violent crime rates*

◀ Differentiate between “city” and “community” measures

- *Objective: Maintain or increase the number of middle skill jobs*
 - **City measure: Apprenticeship placement for city jobs**
 - **Rationale: Limited community-wide data and city influence**
- *Objective: Increase the share of trips made without a car and broaden multi-modal connectivity*
 - **Community measure: Percent of individuals driving alone to work**
 - **Rationale: Ability to measure this on a community-wide basis**

◀ Understand how measures relate to policy goals

◀ Identify gaps and areas for refinement in next iteration
