## STAFF RECOMMENDATION

Staff recommends approval of this petition.

### Plan Consistency

The petition is **consistent** with the *2040 Policy Map* recommendation for the Neighborhood 1 Place Type.

### Rationale for Recommendation

- The site is designated as a Neighborhood 1 Place Type by the *2040 Policy Map*. The proposed zoning of N1-C(CD) is consistent with the *Policy Map* recommendation.
- The proposed zoning represents a slight increase in intensity over the existing N1-B entitlements.

- The petition proposes a maximum height lower than what the district permits, to maintain a scale consistent with surrounding development.
- The primary difference between N1-B (current zoning) and N1-C (proposed zoning) is in dimensional standards, such as lot size and lot width. The two N1 districts permit the same uses.
- The subject property's particularly large lot width, relative to the surrounding context, provides a strong basis for the proposed subdivision under the N1-C zoning district.
- The petition proposes a single family residential building type that aligns with the surrounding single family neighborhood.
- The petition could facilitate the following *2040 Comprehensive Plan* Goals:
  - 2: Neighborhood Diversity & Inclusion

- **TRANSPORTATION SUMMARY**

- The site is located adjacent to Murrayhill Road, a City-maintained major collector, south of Scaleybark Road, a City-maintained minor arterial. A Comprehensive Transportation Review (CTR) is not necessary for the complete review of this petition due to the conventional rezoning. A CTR will be required during permitting if the site generates site trips over ordinance thresholds. The site will be subject to transportation improvements in accordance with the UDO and the adopted CDOT Streets Map. CDOT will work with the petitioner during the permitting process to pursue all options to provide additional forms of connectivity that reflect the types of development associated with this place type and zoning district
