**STAFF
RECOMMENDATION**

Staff does not recommend approval of this petition.

Plan Consistency

The petition is **consistent** with the *2040 Policy Map* recommendation for the Manufacturing & Logistics Place Type.

Rationale for Recommendation

- The petition requests to expand industrial uses on a property that abuts residential uses.
- The site is currently entitled for I-1 (Light Industrial) uses and solely a contractor office with outdoor storage as permitted in I-2 (General Industrial). Staff does not support increasing the number or intensity of industrial uses, and specifically concrete production, adjacent to residential uses.

- The petition would maintain or enhance buffers from the previously approved plan in the form of an 85' to 100' Class A landscape yard along the northern property boundary and 50' Class A landscape yard along the Cedarvale Road frontage.
- The petition could facilitate the following *2040 Comprehensive Plan* Goals:
 - 8: Diverse & Resilient Economic Opportunity may be facilitated by allowing uses that create employment opportunities.

PLANNING STAFF REVIEW

• **Background and Zoning District Summary**

- Existing Zoning:
 - I-2: This district is the legacy ordinance version of ML-2 and allows for the most intense industrial uses, including those that may be hazardous or noxious.
 - This site was rezoned via petition 2019-033 to allow uses permitted in the I-1 (Light Industrial) zoning district as well as a contractor office with outdoor storage as permitted in the I-2 (General Industrial) zoning district.
- Proposed Zoning:
 - ML-2: This district is intended to accommodate industrial uses, including those uses that may be hazardous or noxious. Such uses may have significant external impacts and may include large areas of outdoor storage or operation. The ML-2 Zoning District is generally located in areas readily accessible by arterials and interstates, as well as freight rail.
 - Conditional (CD): This petition includes a site plan and proposes site-specific commitments that further restricts the use of the site.

• **Proposed Request Details**

The site plan accompanying this petition contains the following provisions:

- Allows for a contractor office with outdoor storage, office, industrial light, and industrial general for the sole purpose of indoor precast concrete production.
- Maintains or enhances buffers from the previously approved rezoning in the form of an 85' to 100' Class A landscape yard along the northern property boundary and 50' Class A landscape yard along the Cedarvale Road frontage.
- Illustrates a 25,000 square foot building envelope in the southeastern corner of the property with a parking and outdoor storage envelope in the rear of the site.
- Commits to installing and maintaining signage prohibiting left turn movements from the driveway to Cedarvale Road.
- Limits freestanding lighting to 30' in height and specifies that lighting cannot be installed within 100' of residentially zoned properties.

• **Site Context and Imagery**

- The site is zoned I-2(CD) (General Industrial, Conditional) and is abutted by MHP (Manufactured Home Park) to the north, I-1(CD) (Light Industrial, Conditional) to the east and south, and ML-1 (Manufacturing & Logistics 1) to the west.

The site, marked by a red star, is located between residential uses to the north and commercial and industrial uses to the east, south, and west.

- **INFRASTRUCTURE COMMENTS**

- **Charlotte Department of Transportation**

A Traffic Impact Study (TIS) is not required for the site due to the development generating site trips under ordinance thresholds and not meeting additional TIS triggers.
