ZONING COMMITTEE ACTION/ STATEMENT OF CONSISTENCY

The Zoning Committee voted 6-0 to recommend APPROVAL of this petition and adopt the consistency statement as follows:

To Approve:

This petition is **consistent** with the goals and policies of the *South Inner Area Plan* based on the information from the staff analysis and the public hearing.

Therefore, we find this petition to be reasonable and in the public interest, based on the information from the staff analysis and the public hearing, and because:

- The site is designated as the Campus Place Type on the *2040 Policy Map*. The proposed rezoning to the OG(CD) (General Office, Conditional) district will align the site's zoning with this Place Type designation.
- The plan includes a 25-foot-wide Type B Landscape Yard along the southern and northern boundaries to buffer and mitigate potential impacts on adjacent residential properties.
- The proposed therapy park, part of the larger hospital campus, will provide enhanced and amenitized open space adjacent to the Little Sugar Creek Greenway, supporting the *2040 Comprehensive Plan* goals to integrate natural and built environments.
- The petition could facilitate the following additional *2040 Comprehensive Plan* Goals:
 - 7: Integrated Natural & Built Environments may be facilitated by proposing a new amenitized open space for the medical uses on site.
