STAFF RECOMMENDATION

Staff recommends approval of this petition upon resolution of a requested technical revision.

Plan Consistency

The petition is **consistent** with the 2040 Policy Map recommendation for Manufacturing & Logistics.

Rationale for Recommendation

- This portion of the South Tryon Street corridor in southwest Charlotte houses a swath of industrial uses and is distanced from residential areas and otherwise incompatible uses.
- The proposal is consistent with the adopted Manufacturing & Logistics Place Type and matches the surrounding existing industrial uses.
- The parcel is currently split-zoned, this rezoning would bring the site under one district, allowing for more uniform infill development.

- The conditions proposed prohibit the more noxious uses of the I-2 zoning district such as petroleum storage facilities, landfills, and crematory facilities among others.
- The petition could facilitate the following *2040 Comprehensive Plan Goals*:
 - 8: Diverse & Resilient Economic Opportunity
