STAFF RECOMMENDATION

Staff recommends approval of this petition.

Plan Consistency

The petition is **inconsistent** with the *2040 Policy Map* recommendation for Neighborhood 1 Place Type.

Rationale for Recommendation

- The preferred Neighborhood 1 adjacency is present with this petition.
- The site is also adjacent to the Campus Place Type and would unify the parcels currently owned by the Gethsemane Cemetery to one place type allowing for a consistent development pattern.
- The IC-1 institutional campus zoning district is intended to address the needs and impacts of large-scale institutional campuses including religious campuses.

The approval of this petition will revise the recommended place type as specified by the 2040 Policy Map, from Neighborhood 1 Place Type to Campus Place Type for the site.

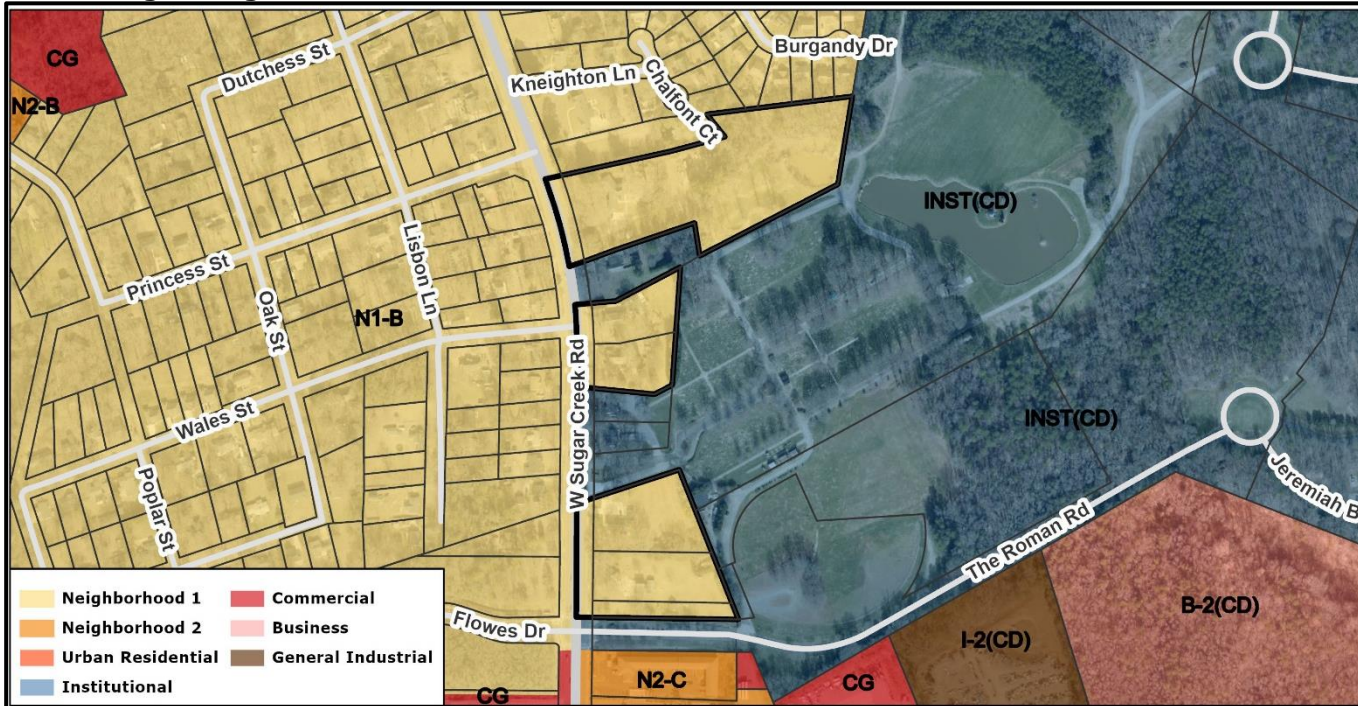

PLANNING STAFF REVIEW

- **Proposed Request Details**

This is a conventional rezoning petition with no associated site plan.

- Requests all uses permitted by right and under prescribed conditions in the IC-1 (institutional campus -1) zoning district.

- **Existing Zoning**

- The subject parcels are zoned N1-B. The surrounding land uses include a cemetery, religious institution and school, single family homes, and commercial/retail uses.

The subject property is denoted with a red star.

• **Public Plans and Policies**

- The 2040 Policy Map (2022) recommends the Neighborhood 1 Place Type for this site.

• **TRANSPORTATION SUMMARY**

- The site is located adjacent to Sugar Creek Road, a State-maintained arterial, south of Kneighton Lane, a City-maintained local street. A Comprehensive Transportation Review (CTR) is not necessary for the complete review of this petition due to the conventional rezoning. A CTR will be required during permitting if the site generates site trips over ordinance thresholds. The site will be subject to transportation improvements in accordance with the UDO and the adopted CDOT Streets Map. CDOT will work with the petitioner during the permitting process to pursue all options to provide additional forms of connectivity that reflect the types of development associated with this place type and zoning district.

• **Active Projects:**
