STAFF RECOMMENDATION

Staff recommends approval of this petition.

Plan Consistency

The petition is **consistent** with the *2040 Policy Map* recommendation for Neighborhood 1 place type.

Rationale for Recommendation

- This portion of this Cotswold neighborhood has long been established with single family homes. Goods and services can be accessed by residents along the intersection of Monroe and Sharon Amity to the east and the intersection of Sharon Amity and Randolph to the West of the site with several transit stops found along North Sharon Amity Road, Monroe Road, and Randolph Road
- The proposed zoning represents a slight increase in intensity over the existing N1-A entitlements, creating a gradual transition between the lower-intensity N1-A and the higher-intensity multi-family zoning districts

(R-12MF(CD) & UR-2(CD)) to the south and west of the site. This ensures a development pattern that prevents sharp zoning contrasts while maintaining the overall character of the neighborhood.

- The site of this proposed rezoning has N1-C entitlements very close to the site.
- The primary difference between N1-A (current zoning) and N1-C (proposed zoning) is in dimensional standards, such as lot size and lot width.
- The site is located near two Activity Centers along the intersection of Monroe and Sharon Amity to the east (about 1 mile) and the intersection of Sharon Amity and Randolph to the West of the site (about 1 mile) and near transit stops on North Sharon Amity Road, Monroe Road, and Randolph Road. Therefore, future residents will have convenient access to shopping, dining, and essential services without relying heavily on cars.
- The petition could facilitate the following *2040 Comprehensive Plan* Goals:
 - 1: 10 Minute Neighborhoods

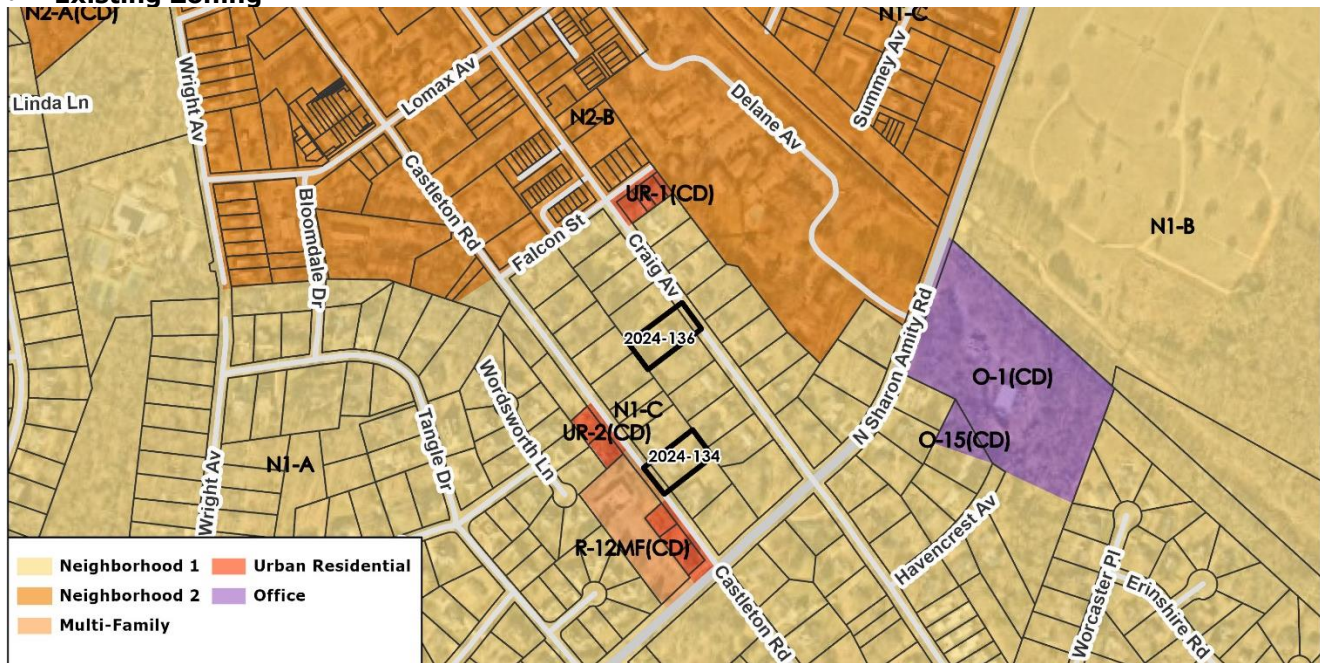

PLANNING STAFF REVIEW

• Proposed Request Details

This is a conventional rezoning petition with no associated site plan.

- The petition proposes to allow all uses permitted by-right and under prescribed conditions in the N1-C zoning district with a single-family home onsite.

• Existing Zoning

- The immediate area surrounding the site includes a mix of N1-A and N1-C zoning, with some nearby UR-2(CD) (Urban Residential, Conditional) and R-12MF (Multifamily Residential, Conditional) zoning.

- The site is surrounded by a mix of single-family residential homes, townhomes, and nearby multifamily developments. To the north and east, the area is primarily zoned N1-A and N1-C, as well as commercial and institutional uses along North Sharon Amity Road.

- The site is currently developed with a single-family home.

- North of the site are additional single-family homes.

- East of the site are single-family homes.

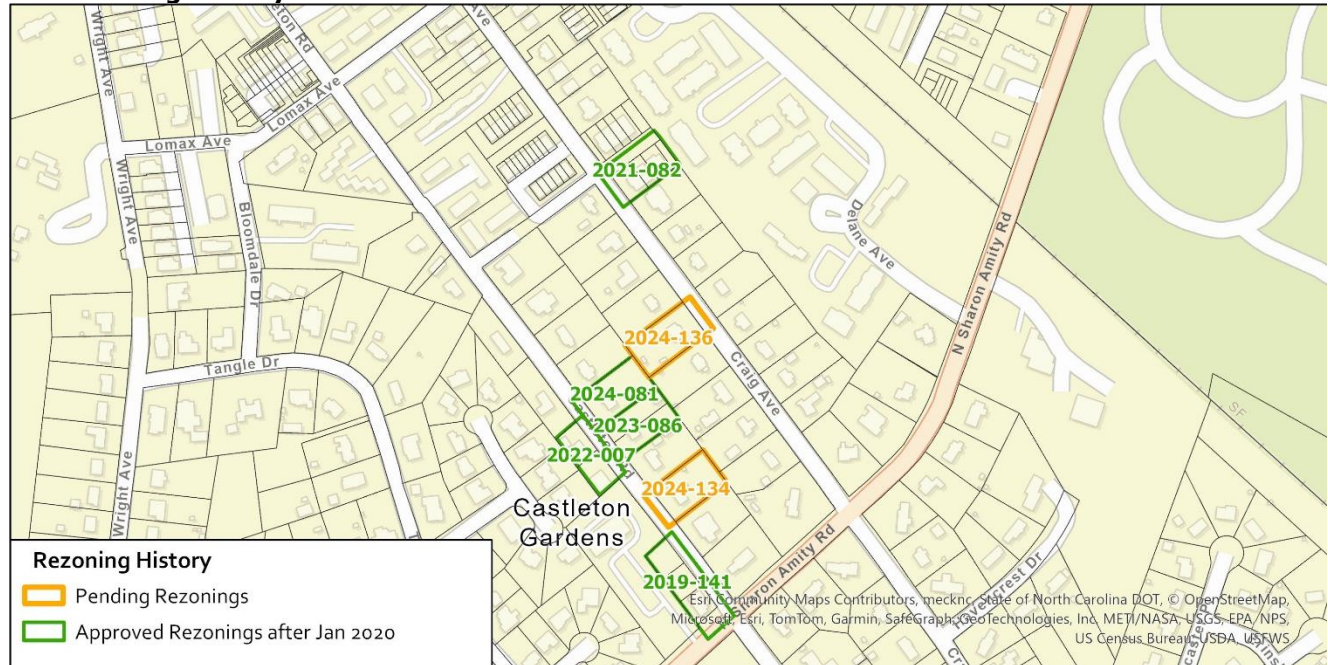

- South of the site are additional single-family homes.

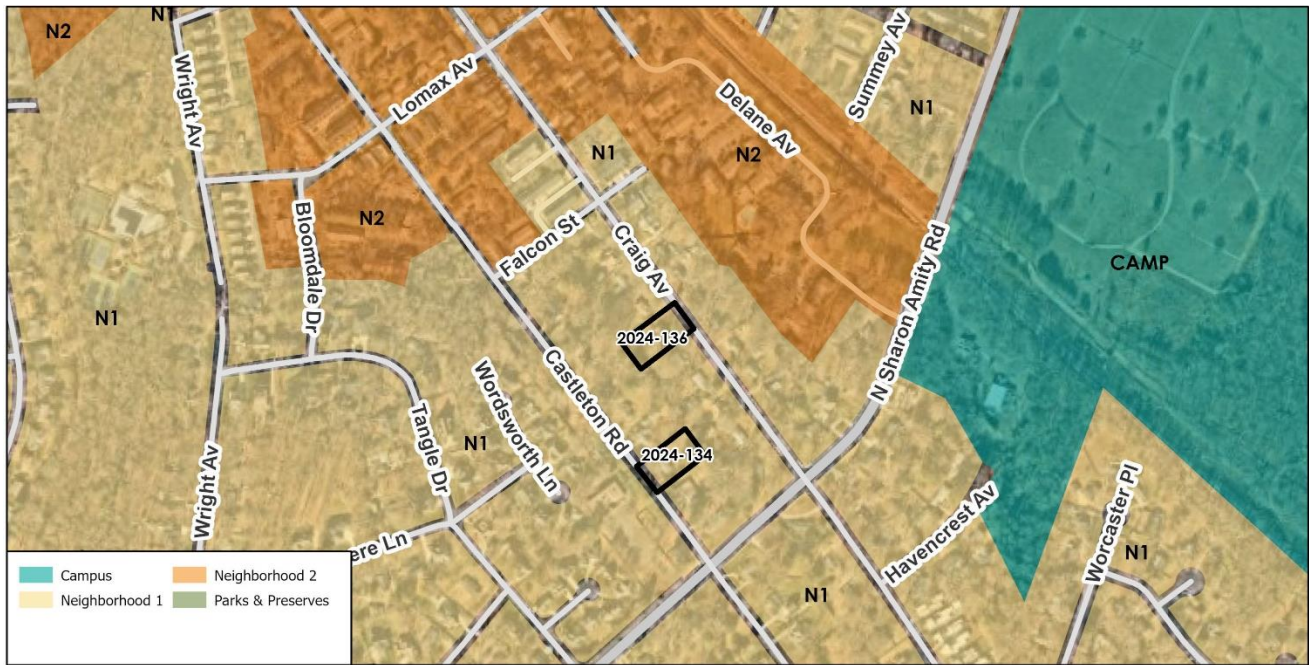

- West of the site are multi-family dwellings.

- Rezoning History in Area**

| Petition Number | Summary of Petition | Status |

- Public Plans and Policies**

- The 2040 Policy Map (2022) recommends the Neighborhood 1 Place Type.

- **TRANSPORTATION SUMMARY**

- The site is located adjacent Craig Avenue, a City-maintained major collector, east of Sharon Amity Road, a City-maintained major arterial. A Comprehensive Transportation Review (CTR) is not necessary for the complete review of this petition due to the conventional rezoning. A CTR will be required during permitting if the site generates site trips over ordinance thresholds. The site will be subject to transportation improvements in accordance with the UDO and the adopted CDOT Streets Map. CDOT will work with the petitioner during the permitting process to pursue all options to provide additional forms of connectivity that reflect the types of development associated with this place type and zoning district.
