The full meeting report is available online.

STAFF RECOMMENDATION <p>Staff recommends approval of this petition.</p> <p>Plan Consistency The petition is inconsistent with the <i>2040 Policy Map</i> recommendation for the Neighborhood Center Place Type.</p> <p>Rationale for Recommendation</p> <ul style="list-style-type: none"> • The petition would bring the parcel, which is currently split-zoned, under one zoning district. • The petition would allow the parcel to be developed under one district, with one list of permitted uses and one set of development standards. • The neighborhood to the south of the site is almost entirely zoned N1-C (Neighborhood 1-C), same as the requested zoning district. <p>The approval of this petition will revise the recommended place type as specified by the <i>2040 Policy Map</i>, from the Neighborhood Center Place Type to the Neighborhood 1 Place Type.</p>

PLANNING STAFF REVIEW

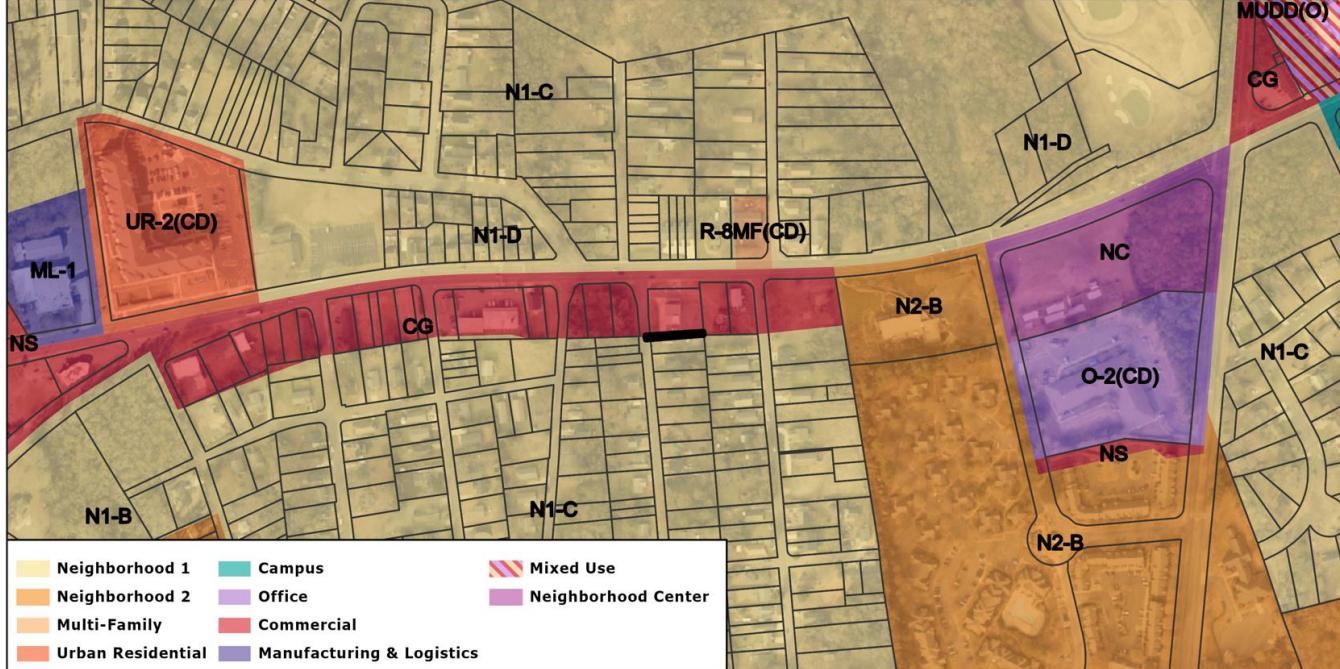

• Background and Zoning District Summary

- Existing Zoning: CG (General Commercial)
 - This district allows for general commercial uses along intersections and arterial streets, accommodating auto access while also encouraging improvement of the pedestrian environment.
- Proposed Zoning: N1-C (Neighborhood 1-C)
 - This district allows for single family, duplex, triplex, and quadplexes in some situations, as well as a limited number of other uses on lots that are 6,000 square feet or greater.

- **Infrastructure and By-Right Development**

- This map depicts infrastructure projects, rezonings, and projects occurring by-right in the vicinity of the subject rezoning. By-right development is development that without exception complies with all standards of the zoning district in which the development is taking place. A project occurring by-right denotes that the development is allowed on the property and needs only to show that the development will meet the ordinance standards).
- More information on the specific projects in this area can be found using [Development Near Me](#)

- **Public Plans and Policies**

- The *2040 Policy Map* recommends the Neighborhood Center Place Type. The proposed rezoning is not in alignment with the adopted Neighborhood Center Place Type. If the rezoning is approved, the adopted place type for the site would be revised to the Neighborhood 1 Place Type.
 - Neighborhood Centers are small, walkable mixed-use areas, typically embedded within neighborhoods, that provide convenient access to goods, services, dining, and residential for nearby residents.
 - Neighborhood 1 places are the lower density housing areas across Charlotte, where most of the city's residents live, primarily in single-family or small multi-family homes or ADUs.

• INFRASTRUCTURE COMMENTS**• Charlotte Department of Transportation**

- The site is located at the intersection of Reid Avenue, a City-maintained local street, and West Boulevard, a State-maintained major arterial. A Comprehensive Transportation Review (CTR) is not necessary for the complete review of this petition due to the conventional rezoning. A CTR will be required during permitting if the site generates site trips over ordinance thresholds. The site will be subject to transportation improvements in accordance with the UDO and the adopted CDOT Streets Map. CDOT will work with the petitioner during the permitting process to pursue all options to provide additional forms of connectivity that reflect the types of development associated with this place type and zoning district.
- **Active Projects:**

- **Transportation Considerations:**
 - No outstanding issues.
- **Vehicle Trip Generation:**

 - Existing Zoning Entitlements: 0 trips per day (based on lot dimensions not allowing development of the site on its own).
 - Proposed Zoning: 0 trips per day (based on lot dimensions not allowing development of the site on its own).
