**STAFF  
RECOMMENDATION**

Staff recommends approval of this petition.

Plan Consistency

The petition is **consistent** with the *Eastland Area Plan* (2003) recommendation for multi-family uses up to 12 dwelling units per acre.

Rationale for Recommendation

- The request is consistent with the land use prescribed by the adopted land use plan.
- The site is directly adjacent to single family zoning.
- The petition would establish consistency with existing, abutting single family development, while also still allowing for a density that is greater than the surrounding single family zoned areas. This furthers the Eastland Area Plan's goals of "supporting strong neighborhoods" by providing additional housing options but maintaining the general character of the surrounding residential areas.
- The rezoning request's maintenance of single family uses but increase in density as compared to the single family areas to the

north and east of the site creates a transition into the higher density multi-family zoned areas adjacent to the site.

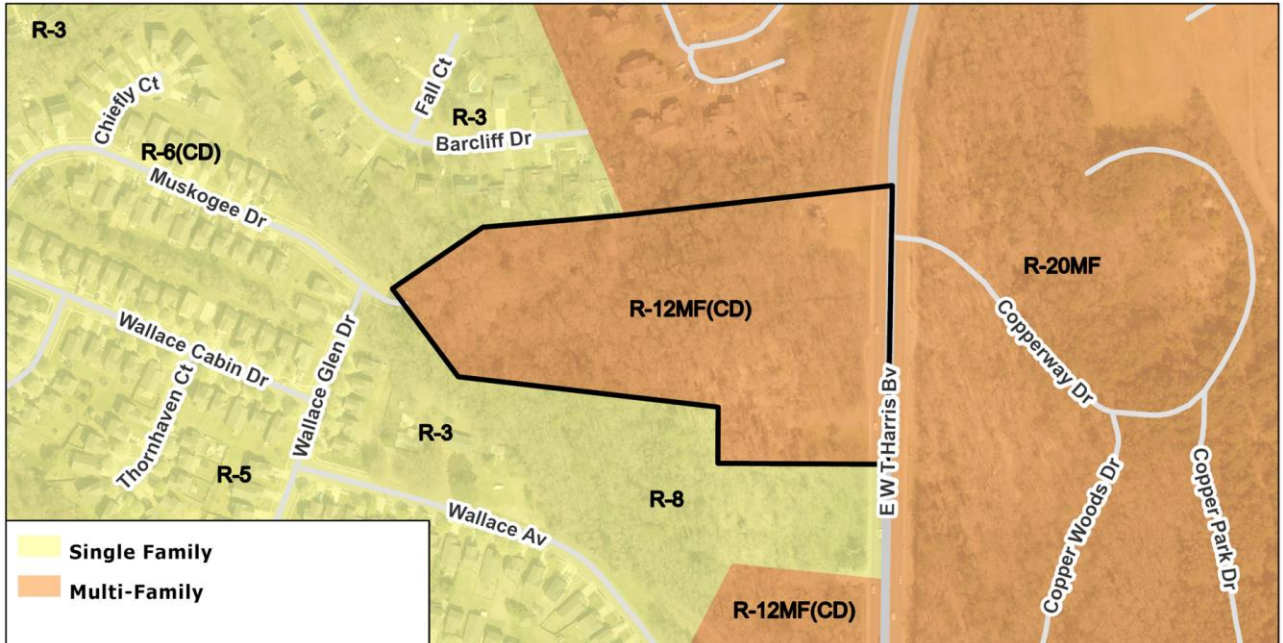

### PLANNING STAFF REVIEW
