STAFF

RECOMMENDATION

Staff recommends approval of this petition.

Plan Consistency

The petition is **inconsistent** with the office/retail/light industrial uses recommended for this site as per the *Dixie Berryhill Strategic Plan* (adopted 2003).

Rationale for Recommendation

- The petition is inconsistent with the office/retail/light industrial land use recommendation for this site. However, the area is located just west of the airport and the third parallel runway making it compatible for either light or general industrial uses.

- The site is located adjacent to Interstate 485 and just south of I-2 zoned property being developed for general industrial uses.
- Any future development of the site will be required to provide a class A 100-foot landscaped buffer from adjacent residential uses in compliance with the zoning ordinance.

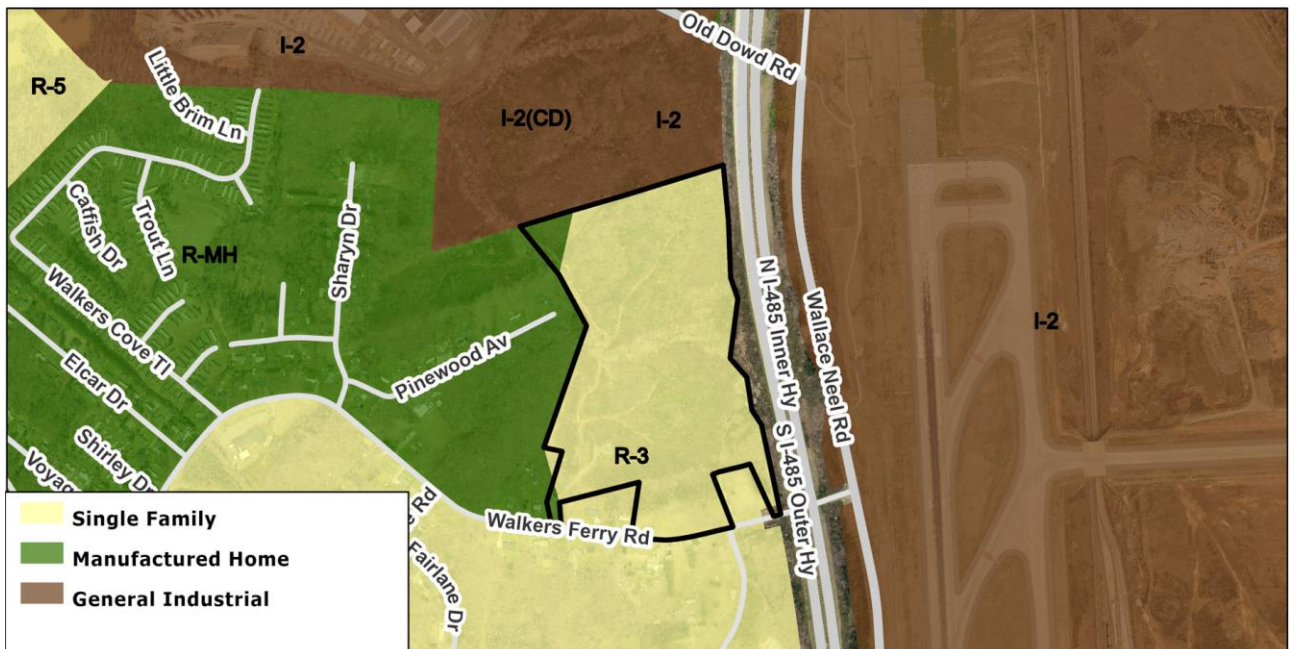

The approval of this petition will revise the adopted future land use as specified by the *Dixie Berryhill Strategic Plan*, from office/retail/light industrial land uses to heavy industrial land use for the site.
