STAFF RECOMMENDATION

Staff recommends approval of this petition.

Plan Consistency

The petition is **consistent** with the *Central District Plan* (1993) recommendation for office/industrial and light industrial uses for a majority of the site and **inconsistent** with the recommendation for greenway uses on a small portion of the site.

Rationale for Recommendation

- The site is located within a mile of the Charlotte Douglas International Airport and within the airport noise overlay, which is compatible with industrial zoning.
- The vast majority of the site is in alignment with the proposed future land use.
- Most of the parcels directly adjacent to the site are zoned I-1 and are largely vacant. The other zoning districts bordering the petition's parcels include B-2 (general business) and O-1 (office).

- This petition is in an area that has experienced an ongoing shift to industrial zoning and land uses.

The approval of this petition will revise the adopted future land use as specified by the *Central District Plan* (1993), from greenway uses for a portion of the site to light industrial uses.

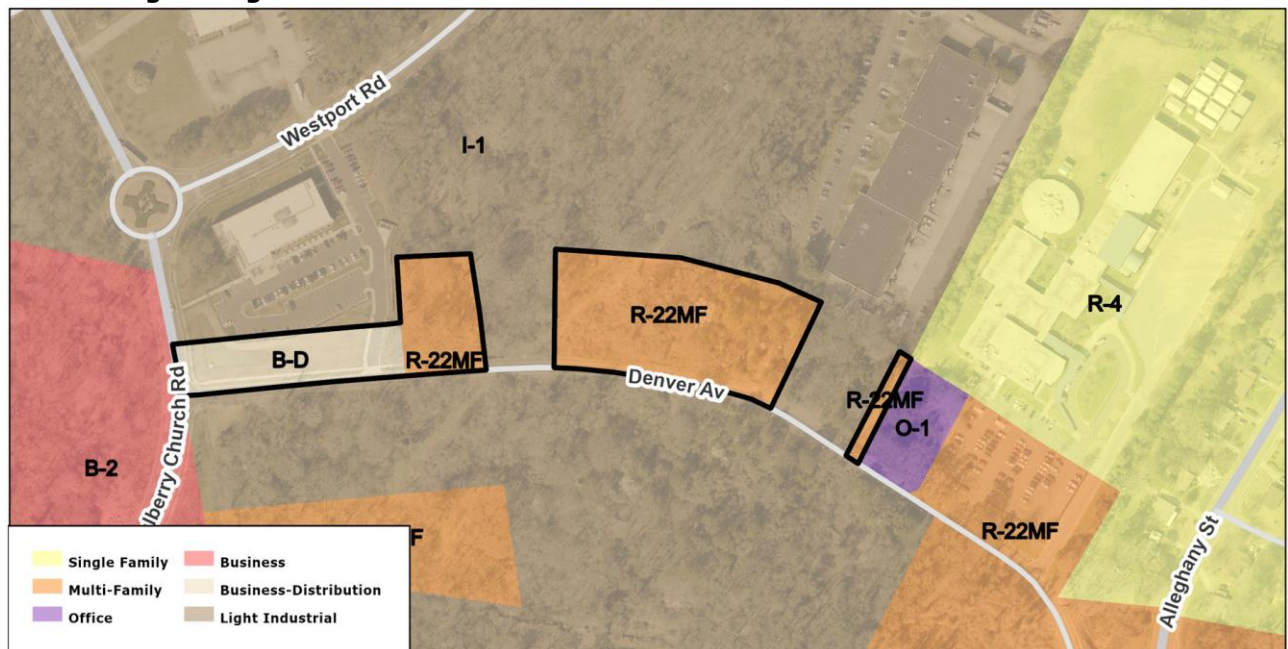

PLANNING STAFF REVIEW

- **Proposed Request Details**

This is a conventional rezoning petition with no associated site plan.

- Proposes to allow all uses in the I-1, light industrial, zoning district.

- **Existing Zoning and Land Use**

- The site is currently zoned B-D and R-22MF and is in an area with mostly vacant lots and industrial, office, and institutional uses.

- The subject site is denoted with red stars.

- North of the site is steel fabricator business.

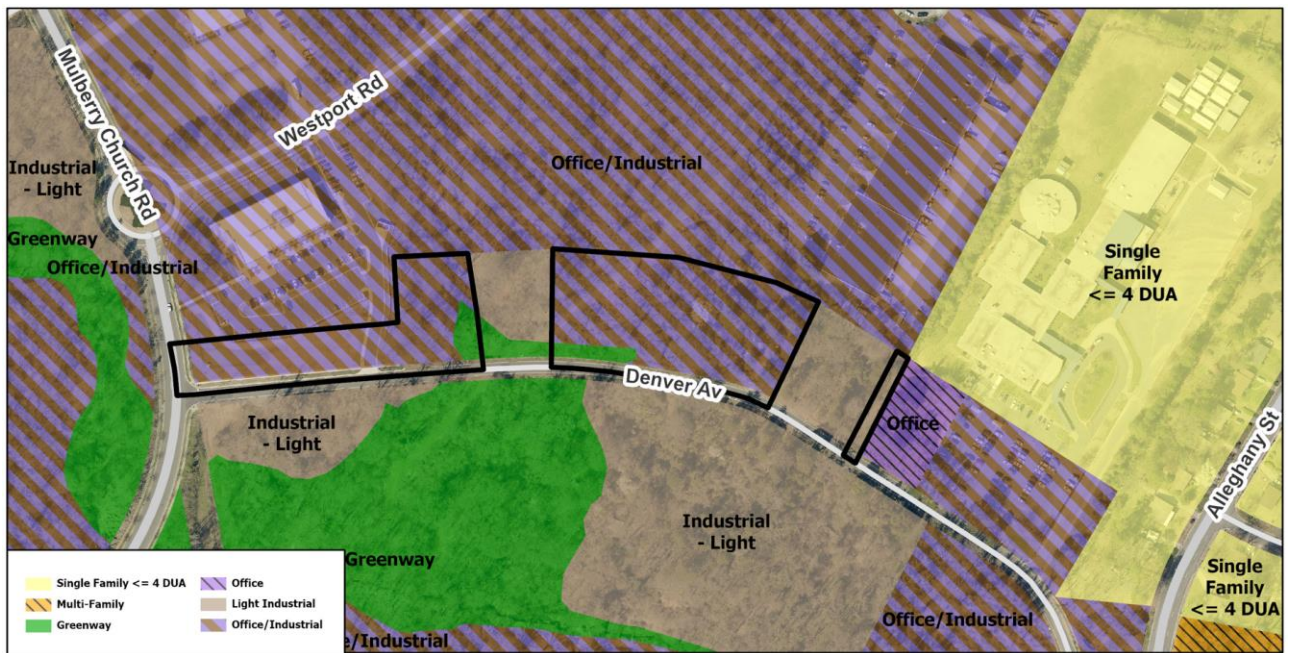

- North, east, south, and west of the site are vacant parcels.

- **Rezoning History in Area**

- There have been no recent rezonings in the area.

- **Public Plans and Policies**

- The *Central District Plan* (1993) recommends office/industrial, light industrial, and greenway uses for the site.

- **TRANSPORTATION SUMMARY**

- The site is located on Denver Avenue, a City-maintained local street, near the intersection of Mulberry Church Road, a State-maintained minor thoroughfare. A Traffic Impact Study (TIS) is not needed for this site. The proposed site will generate less vehicular trips than what it is entitled with the current zoning. CDOT will work with the petitioner during the permitting process to ensure all required streetscape and transportation ordinance requirements are complied with for adequate access and connectivity to the site and surrounding network.
- **Active Projects:**
 - There are no active projects near this site.
- **Transportation Considerations**
 - No outstanding issues.

- **Vehicle Trip Generation:**

Current Zoning:

Existing Use: 0 trips per day (site is vacant).

Entitlement: 1880 trips per day (based on 345 dwellings).

Proposed Zoning: 295 trips per day (based on 157,000 square feet of warehouse uses).
