**STAFF  
RECOMMENDATION**

Staff recommends approval of this petition.

Plan Consistency

The petition is **consistent** with the *South District Plan* (1993) recommendation for single family uses on the site but is **inconsistent** with the plan's density recommendation of up to three dwelling units per acre (DUA).

Rationale for Recommendation

- This petition allows for a slight increase in density on a site that is currently being underutilized given the existing development of one single family home on a lot that is more than three acres.
- The site is located along Old Providence Road, just a quarter mile from Providence Road, a state-maintained major thoroughfare where a number of more moderately dense residential developments have been constructed or are in development. Being located along Old Providence Road, so near the intersection with Providence Road makes this an appropriate site for a transition into

the lower density single family developments along Old Providence Road.

- This petition is consistent with the area plan's single family land use recommendation.

The approval of this petition will revise the adopted future land use as specified by the *South District Plan* (1993), from single family residential uses up to 3 DUA to single family residential uses up to 4 DUA for the site.
