**STAFF
RECOMMENDATION**

Staff recommends approval of this petition.

Plan Consistency

The petition is **consistent** with the *Independence Boulevard Area Plan* (2011) recommendation for single family uses, but **inconsistent** with the plan's density recommendation for up to five dwelling units per acre (DUA).

Rationale for Recommendation

- The rezoning is for a corner lot, making it an appropriate site for a slight increase in density in an area predominantly developed with single family homes under the R-5 zoning district.
- Although the site is 0.45 acres, under the current zoning district, lot width requirements limit the site to one single family home. The proposed zoning district would allow for the site to be subdivided into two lots for a maximum of two single family units.
- The petition is consistent with the area plan's recommendation for single family land uses.

The approval of this petition will revise the adopted future land use as specified by the *Independence Boulevard Area Plan* (2011), from the single family residential density recommendation of five DUA to six DUA.
