**OUTSTANDING ISSUES**

Environment

1. ~~Street trees are required for this site. There is a definite conflict between the 12' multi use path and the existing street trees as shown. There are minimum standard for tree planting that must be maintained. If developed as shown, tree pits will most likely be needed to achieve compliance. Staff recommends altering the path internal to the site.~~ **Addressed**

Site and Building Design

2. ~~Petitioner needs to delineate area proposed to be B-2(CD) if Type 2 EDEE drive through restaurants with outdoor seating are proposed to be added to the site. Please add B-2(CD) to proposed zoning districts.~~ **Petitioner is proposing Type 1 EDEE drive through restaurants.**
3. ~~FAR contradicts the maximum square footage noted.~~ **Addressed**
4. ~~Remove notes under Signage and replace with "signage will be provided per ordinance."~~ **Addressed**
5. ~~Amend Data Table to clearly show existing square footage, proposed square footage, and total square footage.~~ **Addressed**
6. ~~Permitted uses language on site plan proposes to allow all uses. Amend language to specify only nonresidential uses are permitted. In addition, architectural standards note 4.i. implies residential uses may be allowed above the ground floor. Revise accordingly.~~ **Addressed**

7. ~~Remove Note 2B that states "The site may be developed to a maximum gross floor area of 686,854 sq. ft.")~~. Limit maximum square footage to what is proposed as part of this rezoning.
