STAFF

RECOMMENDATION

Staff recommends approval of this petition.

Plan Consistency

The petition is **consistent** with the 2040 Policy Map (2022) recommendation for Community Activity Center.

Rationale for Recommendation

- The site is within a 1-mile walk of the Woodlawn Station.
- The TOD-NC district may be applied to parcels within a 1-mile walking distance of an existing rapid transit station or within a 1-mile walking distance of an adopted Metropolitan Transit Commission (MTC) alignment station location.
- The existing uses on the site are incompatible with the recommended place type. If approved, this rezoning will allow the property to be redeveloped to transit supportive uses which are consistent with the Community Activity Center Place Type.
- The use of conventional TOD-NC zoning applies standards and regulations to create the desired form and intensity of transit

supportive development, and a conditional rezoning is not necessary.

- TOD standards include requirements for appropriate streetscape treatment, building setbacks, street-facing building walls, entrances, and screening.

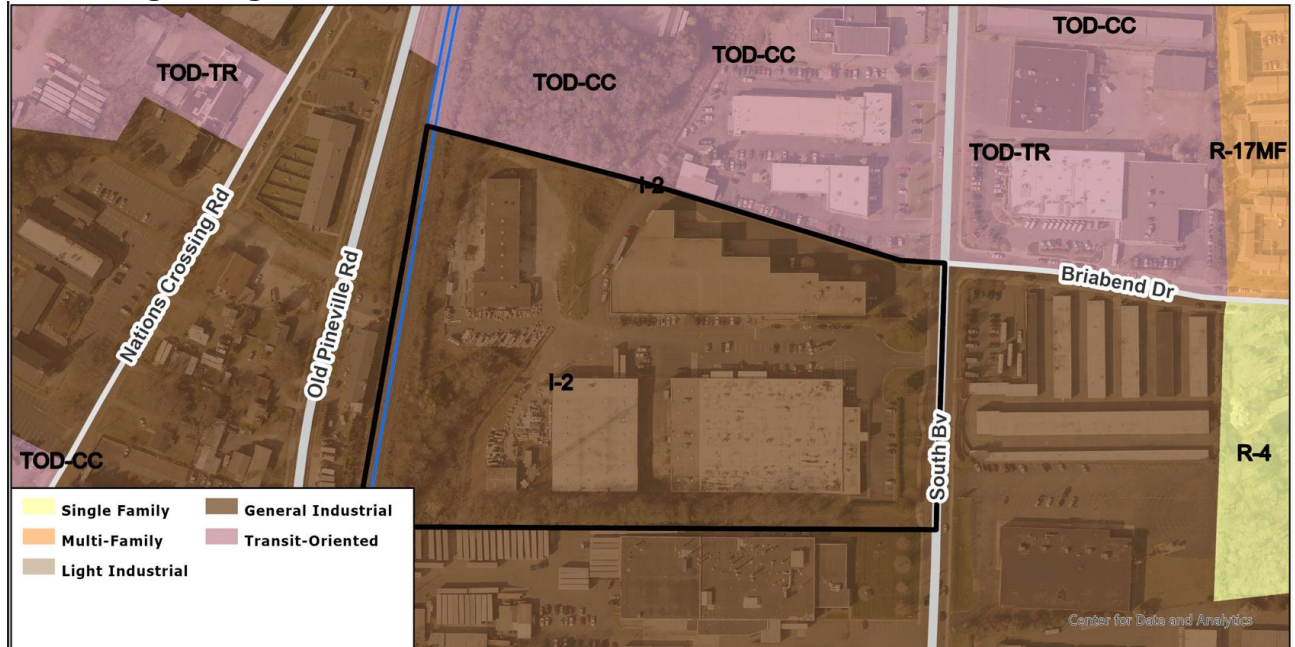

PLANNING STAFF REVIEW

• Proposed Request Details

This is a conventional rezoning petition with no associated site plan.

- Allows all uses in the TOD-NC (transit oriented development, neighborhood center) zoning district.

• Existing Zoning and Land Use

- This site is zoned I-2 and is in an area with predominantly commercial and industrial uses along this portion of South Boulevard.

- North of the site are auto-centric commercial uses.

- East of the site is a storage facility.

- South of the site is an industrial manufacturer and retail uses.

- West of the site are a number of redeveloped areas that house retail and office uses.
