**STAFF
RECOMMENDATION**

Staff recommends approval of this petition.

Plan Consistency

The petition is **inconsistent** with the *2040 Policy Map (2022)* recommendation for Manufacturing and Logistics.

Rationale for Recommendation

- The subject site is not adjacent to any residential uses or zoning districts, development under the existing zoning district would be incompatible with the site's context.
- This is an appropriate site to rezone to institutional uses as it is surrounded by existing government institutional uses along the eastern side of Beam Road and there are industrial uses and zoning districts along the rest of the rezoning boundary.
- The site is directly surrounded by areas within the Campus Place Type that host existing government uses. Institutional land uses are more directly compatible with the Campus Place Type as opposed to Manufacturing and Logistics which supports manufacturing, logistics, and distribution uses.

The approval of this petition will revise the recommended place type as specified by the *2040 Policy Map*, from Manufacturing and Logistics to Campus for the site.

PLANNING STAFF REVIEW

- **Proposed Request Details**

This is a conventional rezoning petition with no associated site plan.

- Proposes to allow all uses in the institutional zoning district.

- **Existing Zoning and Land Use**

- The site is currently zoned R-3 and is in an area with warehouse uses and City of Charlotte government buildings.

- The subject site is denoted with a red star.

- North of the site is a freight forwarding warehouse.

- Directly east of the site is a Charlotte-Mecklenburg Police Department (CMPD) Training Compound. Along the east side of Beam Road, north of Shopton Road are numerous training areas for the Charlotte Fire Department and CMPD.

- South of the site is the Charlotte Vehicle Operations Center, a driver training facility.

- The area west of the site is vacant and was recently rezoned to I-1(CD).
- **Rezoning History in Area**

- **Public Plans and Policies**

- The 2040 Policy Map (2022) recommends Manufacturing and Logistics for the site.

- **TRANSPORTATION SUMMARY**

- The site is located on Beam Road, a City-maintained minor throughfare north of Shopton Road, a State- maintained minor throughfare. A traffic Impact Study (TIS) is not needed for the site.
