STAFF RECOMMENDATION

Staff recommends approval of this petition.

Plan Consistency

The petition is **consistent** with the *2040 Policy Map* (2022) recommendation for Community Activity Center.

Rationale for Recommendation

- The site is within a ½-mile walk of the Scaleybark Station.
- The TOD-CC zoning district may be applied to parcels within a ½-mile walking distance of an existing rapid transit station or within a ½-mile walking distance of an adopted Metropolitan Transit Commission (MTC) alignment station location.
- The rezoning of this parcel will allow the site to be redeveloped for transit-supportive uses.
- The site is directly adjacent to a number of parcels zoned TOD-CC and TOD-TR and is generally located in an area along Old Pineville Road that is transitioning away from light industrial uses to more varied uses compatible with transit and pedestrian environments.

- The rezoning of this site to TOD-CC would be consistent with the approved place type.
- The use of conventional TOD-CC zoning applies standards and regulations to create desired form and intensity of transit supportive development, and a conditional rezoning is not necessary.
- TOD standards include requirements for appropriate streetscape treatment, building setbacks, street-facing building walls, entrances, and screening.

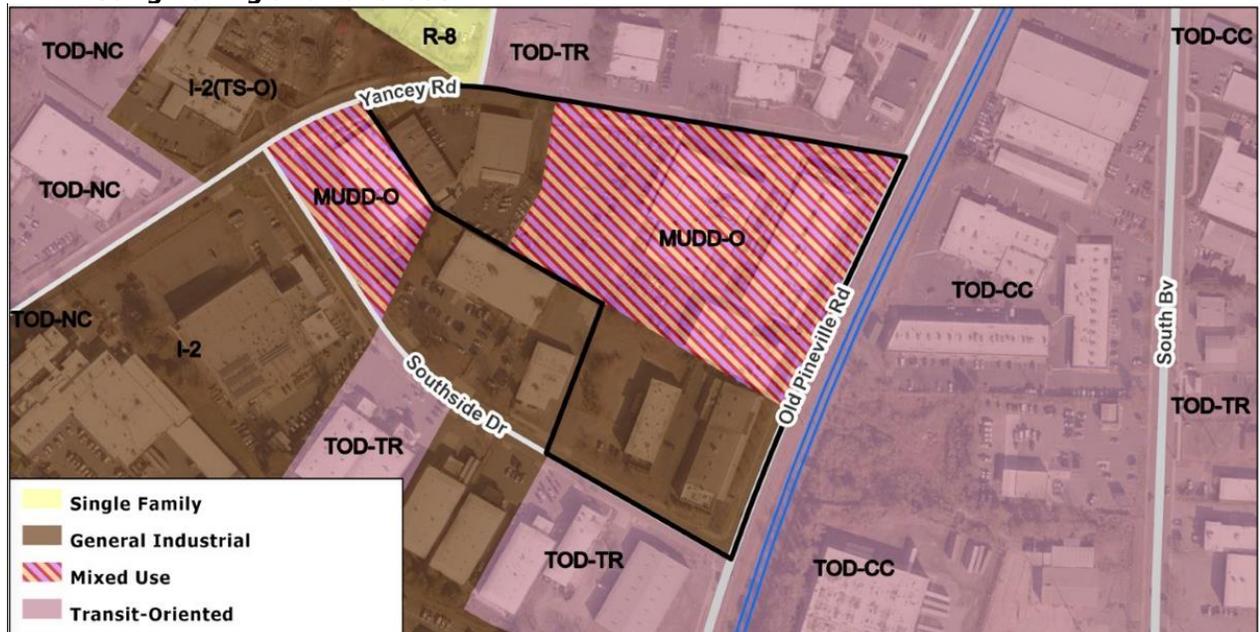

PLANNING STAFF REVIEW
