**STAFF
RECOMMENDATION**

Staff recommends approval of this petition.

Plan Consistency

The petition is **consistent** with the 2040 Policy Map recommendation for the Commercial Place Type.

Rationale for Recommendation

- The petition's request for allowing B-2 uses maintains consistency and adds to the strong commercial uses along the corridor.
- These uses would be appropriate as the site is surrounded by industrial and commercial uses.
- The petition proposes street improvements along Statesville Road to include a southbound right turn lane.

- The petition also proposes street improvements to Sunset Road including an eastbound right turn lane as well as a median to restrict left turn movements.

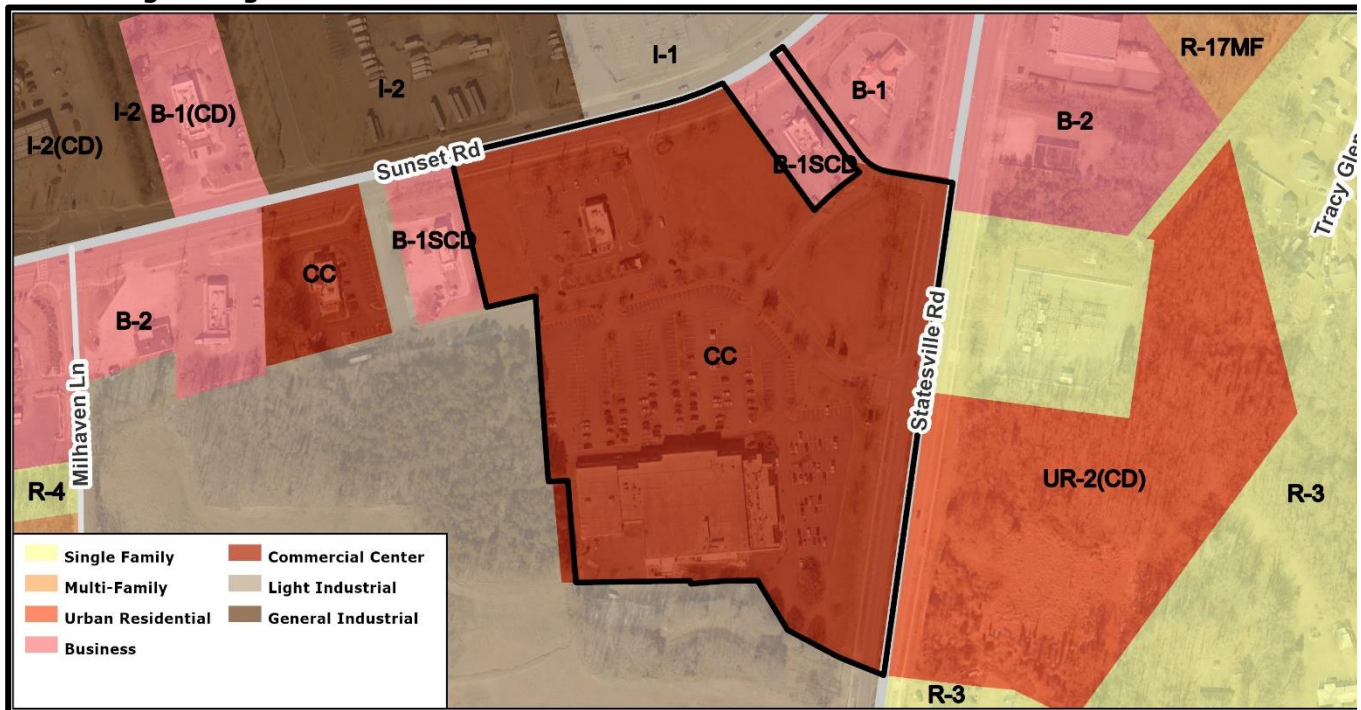

PLANNING STAFF REVIEW

Proposed Request Details

The site plan accompanying this petition contains the following provisions:

- Proposes 3 southbound right turn lanes on Statesville Road.

- Constructs a median along Sunset Road to restrict left turn movements by extending the existing pedestrian island to the west.
- Modifies pavement markings to reflect right in/right out turns.

Existing Zoning

- The surrounding land uses include fast-food outlets, a hotel, multi-family apartments, commercial and industrial uses.

Existing Zoning	Translated Zoning	Recommended Place Type

- **Public Plans and Policies**

- The 2040 Policy Map (2022) recommends the Commercial Place Type.

- **TRANSPORTATION SUMMARY**

- The site is located west of Statesville Road, a State-maintained major thoroughfare and south of Sunset Road, a State-maintained major thoroughfare. A Traffic Impact Study is required for the complete review of this petition due to the site generating more than 2,500 daily trips and/or triggering other City TIS requirements. In lieu of a TIS, the petitioner has committed to the access improvements identified by rezoning administrative approval amendment 2006-157AA. CDOT will work with the petitioner during the permitting process to ensure all required streetscape and transportation related ordinance requirements are complied with for adequate access and connectivity to the site and surrounding network. All outstanding CDOT comment have been addressed.
