ZONING COMMITTEE DISCUSSION

Staff provided a summary of the petition and noted that it is inconsistent with the *2040 Policy Map*.

Commissioner Welton asked if there were any pedestrian connections across Mallard Creek Road to the school. Staff responded that crosswalks were not provided.

The commissioners voted to suspend the rules and ask the petitioner two questions.

Commissioner Russell asked why the two alleyways dead-end and do not connect to the public street B.

The petitioner responded it was due to the proximity of the main access point on Mallard Creek Road and to provide on-street guest parking. They stated they were willing to explore providing that connection if it was allowed.

Commissioners asked if the petitioner was still contributing \$50,000 to the city for transportation improvements in the Mallard Creek Road area.

The petitioner responded that they offered a significant reduction in unit count and type from 283 multi-family units to 132 single family attached townhome style units and committed to a for sale only product rather than rental units instead of the contribution.

There was no further discussion of this petition.

MINORITY OPINION

Commissioner Lansdell expressed concerns over no crosswalk across Mallard Creek Road for the school and the outstanding traffic issues associated with rezonings in the area.
