### 1. GENERAL PROVISIONS

- Site Location: These Development Standards form a part of the Rezoning Plan associated with the Rezoning Petition filed by Conformity Corporation ("Petitioner") to accommodate the development of single family homes on an approximately .72 acre site located on the south side of the intersection of Ellison Street and Waco Street (the "Site").
- Zoning Districts/Ordinance: Develop of the Site will be governed by the Rezoning Plan as well as the applicable provisions of the City of Charlotte Zoning Ordinance (the "Ordinance"). Unless the Rezoning Plan establishes more stringent standards, then those regulations established under the Ordinance for the UR-2 zoning classification shall govern.
- Graphics and Alterations: The depictions in of lots, lot lines, sidewalks, streets and other development matters and site elements (collectively the "Development/Site Elements") in the Rezoning Plan are schematic in nature. They should be reviewed in conjunction with the provisions of these Development Standards. The layout, location, sizes, formulations of the Development/Site Elements depicted on the Rezoning Plan are graphic representations of the Develop/Site elements proposed. Changes to the Rezoning Plan not anticipated by the Rezoning Plan will be reviewed and approved as allowed by Section 6.207 of the Ordinance.
- Nature of Request: The purpose of the petition is to request a revision to the zoning of the site (the "Site"), currently R-6, to UR-2 (CD). The revision reduces the required public street frontage for single family lots from 40' to 20'. The revision also reduces the front yards in ways that allow for building envelopes like those schematically represented in the technical data sheet. Existing zoning allows for 3 lots. This submittal anticipates UR-2 CD compliant lots.

### 2. PERMITTED USES

The Petitioner will prepare lots for sale to others, who will in turn construct single family homes pursuant to this technical data sheet, these development standards and the applicable provisions of the City of Charlotte Zoning Ordinance (The "Ordinance").

### 3. TRANSPORTATION

- No dedicated ROW is planned.
- A private roadway achieved by way of private agreements will be constructed generally as depicted on the Technical Data Sheet.

The location of the vehicular access point from the public ROW to the Private Street is subject to any minor modifications necessary to meet the Charlotte Department of Transportation ("CDOT") requirements for approval.
- The private drive will not be gated.
- Driveways and parking pads shall have a minimum length of 20 ft. measured from the back of sidewalk to the face of the garage.
- All transportation improvements shall be approved and constructed before the first building certificate of occupancy is issued.
- The petitioner will dedicate any required right of way (minimum 2' behind the back of sidewalk where applicable).
- Petitioner reserves the right to modify the required sidewalks and plant strip, per section 9.407.2(c) to meet the adjacent context of the existing street along Waco Street and Ellison Street.

### 4. ARCHITECTURAL STANDARDS
