The Community Relations Committee (CRC) serves to prevent discrimination because of race, color, religion, national origin, sex, family status or disability; to ameliorate the effects of past discrimination, and to promote harmony among citizens of Charlotte and Mecklenburg County. The CRC serves to study programs in the area of human and community relations and to make the results available to the public and to promote the quality of opportunity for all citizens.

The volunteers who comprise members of the Community Relations Committee are an integral part of the human relations support system for the City of Charlotte and Mecklenburg County. CRC members pursue activities that ensure fair housing practices and access to public accommodations; assist in settling dispute and group conflicts; improve race, ethnic and community relations; prevent discrimination; and improve communication among various community groups and individuals.

CRC's diverse membership is divided into six subcommittees: Programs, Communication, Education, Police-Community Relations, Intercultural Relations and Young Leaders. Question applies to Citizens Review Board (B/O/E)

CRB: Describe any personal attitude, life experiences, and prior examples that demonstrate you can make objective, impartial, evidence based decisions.

After many years of racial profiling my attitude towards policing was at a very disturbing high. As I continue to move forward in life I received a criminal justice degree from the UNCC, I also attended CPCC, BLAT training in the early 2000's. With this being said I can say now, I am well-equipped with the tools, to making objective, evidence based decisions.

So with this being said, I must say I work well in and with our culturally diverse communities.

My comfort level with the use of deadly force is pretty high base on how many cases that has crossed our board. But understand it comes at a cost, because it is always a big and sad matter when it comes down to someone losing their life.

Why are you interested in serving on these boards/ committees?

I am very interested in serving on this committee because I have a huge passion for eliminating racism. I come from a very diverse background and I believe that it is important to stand up for what is right. We currently live in a world that people need to take action and stand up for those that do not have the available resources or the voice to stand up for themselves. We need committed people that are not only going to bring awareness but someone who will actually make changes.

Please describe any background or abilities that qualify you to serve on these boards/ committees.

I graduated from NC State with a Sociology Degree. While attending NC State, I worked with EEOC and became a certified Diversity Trainer. I have had the wonderful opportunity to devote my volunteer time with International Focus in Raleigh and International House in Charlotte.

Although I do not have experience serving on any boards, I feel my work and life experience will allow me to provide a unique and electric perspective. I want to better our community and feel this could be a wonderful opportunity to do so.

Why are you interested in serving on these boards/ committees?

As a social worker, I have an innate drive to advocate for members of my community. I feel that putting policies in place that remove barriers, so individuals and families can better themselves, is part of my calling as a social worker. I want to be apart of something that makes a difference. I believe we are all here to help others, and I think this is the first step I can take to really make an impact. I want to be apart of something that is bigger than myself, for the benefit of others and the city of Charlotte.

Please describe any background or abilities that qualify you to serve on these boards/ committees.

The biggest strength I possess is my ability to communicate with individuals from all walks of life. My close family and friends often describe me as "someone that can talk to a wall." I have held several positions in my life that have also allowed me to develop a skill set that would make me successful in a board/ committee position. These include, but are not limited to; multitasking, strong work ethic, high energy, ability to work on interdisciplinary teams, ability to triage needs/ tasks, strong leadership skills, resilient and positive attitude, and the ability to think outside of the box. My motto is "if there is a will, there is a way," and I do not give up easily.

Housing Advisory Board of Charlotte-Mecklenburg: My first generation immigrant parents achieved the American dream of home ownership, only to lose it to foreclosure due to financial hardships. I have also worked in the mortgage industry for almost 5 years. I have counseled people while they are applying for home loans. I have seen how most people are one missed paycheck away from being without a home. Housing and the lack there of is very dear to my heart. I believe that home ownership can be a privilege but having a place to call home is a human right. I would be honored to be a member of the housing advisory board to help solve the issue of homelessness in our neighborhood.

Please describe any background or abilities that qualify you to serve on these boards/ committees.

I graduated from UNC Charlotte with a bachelors of science in Psychology. I have worked in the mortgage industry for over 6 years.

Why are you interested in serving on these boards/ committees?

Through my experience serving on the board at UpROAR Leadership Academy, my heart has been broken at times seeing parents of our students working multiple jobs just to keep their family together and alive. I am a believer in opportunities for all. While those parents might be busy working multiple jobs, I feel it is my duty to listen to them and their needs and help by being their voice to better our community for them and all.

Please describe any background or abilities that qualify you to serve on these boards/ committees.

I believe my experience through the school, Big Brothers Big Sisters, and serving as team lead in the kids ministry at church has provided me with a unique insight into our community and those who make it. Through each of these roles, I have been challenged with creating a space for people who come from different backgrounds where they can share and learn from one another.

Why are you interested in serving on these boards/ committees?

Interested in politics since early High School, I've always wanted to find my niche in my local community. Having done some beautification projects in Winston-Salem in the past, I have some (allbeit limited) experience in being a part of city committees. I ultimately want to get involved. I have passions in maintaining a healthy,m beautiful community, as well as a desire to have great businesses in the city. As a salesman (restaurants, bars, coffee shops, clubs supplies) I see constant turnover from business to business, many times ending poorly both for business and the community (see:Club 935 closing on Summit). My goal is to make sure each and every business succeeds not only financially, but in a way that favors Charlotte as a whole.

Please describe any background or abilities that qualify you to serve on these boards/ committees.

Why are you interested in serving on these boards/ committees?

I am interested in volunteering my time to support my community. It has always been a dream to give back to the community. There have been a number of programs that assisted me while growing up. I want to show others that look like me and grew up just as myself in a complicated environment, that he or she can survive and become a great citizen of Mecklenburg County.

Please describe any background or abilities that qualify you to serve on these boards/ committees.

I grew up in Boulevard Homes, which is not another community. I was fortunate enough to learn about employment thru the JTPA program in the 1990's. I became exposed to people who did not live in my community and those were positive role models. I knew from attending an open school that I had a chance to make it. I have learned to have empathy for others and offer support as much as possible. I volunteered with Urban Ministry and their efforts to reduce homelessness. I have volunteered for the city and assisted with projects such as a back to school drive. I have also volunteered for Safe Alliance on West Blvd. I have experience auditing and bookkeeping, analyzing, researching and project management.

Why are you interested in serving on these boards/ committees?

Still trying to earn a spot and serve in any way I can! I am applying for the committees I believe fit my experience and interests. I am mos interested in the Community Relations Committee. I would be honored to be a part of the next steps-- towards adequate affordable housing, improved police-community relations, and overall economic opportunity--now that the letter to the community phase has been completed.

Please describe any background or abilities that qualify you to serve on these boards/ committees.

I have lived in Charlotte since 2000. I have worked as an ICU nurse for more than eight years, caring for people from every walk of life. This work requires an open mind and compassion. It fosters a sense of common humanity. It challenges preconceived notions about those unlike ourselves. The same holds true for my work as a School Health Nurse. I care for children with challenging home situations, health problems, and learning needs. I have also been fortunate to work with refugee communities, including Hmong and Burmese, and most recently families forced to leave Puerto Rico. My communication skills have been challenged, and I have worked hard to find ways to bridge cultural, linguistic, and socioeconomic divides. Prior to becoming a nurse, I was a local broadcast journalist. I worked at several local stations as a reporter and producer. In this role I was required to work under pressure alongside many strong personalities. I learned to lead a team and adapt to quickly changing circumstances. Between my careers as journalist and nurse, I was fortunate to work in restaurant management. I managed hourly staffs, store budgets, and lots of customers. It was an unexpected but welcome challenge and I learned quite a bit about conflict resolution, acting with urgency and anticipating needs. Finally, as a progressive, Jewish woman, I believe I can add to the diversity of any committee.

Why are you interested in serving on these boards/ committees?

I am a Matthews, NC native, grew up in Charlotte. I have an extreme desire to not only be involved in my community, but to listen and understand the perspectives of all its residents, as well as work with others to find real, substantive solutions to the problems facing those in our City.

Please describe any background or abilities that qualify you to serve on these boards/ committees.

I know our city and region better than most. I have been deeply involved in my community in various ways for years, often working with those in the City. I also make a point to know my neighbors on the ground level, on a one-on-one basis. I have worked in small business and learned how to work with business owners, and I have worked in larger corporations and learned how to work with the public. I have made it my purpose to find the truth (even if it is complicated) in our vast, complex society, so that I may do my part in the fight for equitable policy, and neighborliness.

Why are you interested in serving on these boards/ committees?

I am interested in serving because I believe in community service. I chose this board because I am interested in social justice and I have studied what communities can do to promote equality. I am influenced by the works of economist Amartya Sen, who promotes human development and stresses the importance of a sound social infrastructure. Through my employer, I recently completed a DISC assessment and scored a D for Dominance and C for Creativity. This means I am determined to get things done and find creative solutions to problems. Before suggesting solutions in detail, I need to join the committee first to identify problems and solutions that are realistic and possible, but I have many ideas. I believe technology, and programs such as Code For America, can reduce inequalities and provide greater access to community resources. Certainly, technology can accomplish the Committee's goals of transparency and improving communication among community groups and individuals. My strong math background can help improve fairness and equality because large data sets can be mined, and using statistics, the city can identify areas of inequality. This data can be presented visually with charts and graphs to identify trends. If the data trends toward inequality, then the city can take preventative measures. Another idea, for resolving conflicts among youth, is Youth Court, a specialized diversion program for young offenders that uses court-like procedures in courtroom settings. Youth Court is backed by solid research and The National Association of Youth Courts. I would like to join this committee because I have solutions that are practical, and backed by research and empirical evidence. I bring energy and fresh ideas to keep the city moving forward.

Why are you interested in serving on these boards/ committees?

I have served on the CRC and thoroughly enjoyed the experience. I became more aware of my city, what is going on here, how I can contribute my skills. . The CRC is a partner in many of the important conversations going on in our community today. I have been involved in the fight against hunger and poverty for many years; both as a broadcaster and a nonprofit professional. I believe the hands on knowledge I bring to the committee is a valuable resource. I was terminated from the committee just short of the end of my last term. My work schedule at Second Harvest conflicted with several meetings. I had been under the mistaken impression that participating in other community related activities could be used as a makegood for missing a meeting, and I attended a number of Black Lives Matter, Opportunity Task Force and Dismantling Racism events during this time.

Please describe any background or abilities that qualify you to serve on these boards/ committees.

15 years in local broadcasting as director of marketing and community affairs. 13 years employment in nonprofit world fighting hunger and poverty Frequently attend community discussions on issues such as affordable housing, equal opportunity, education Community volunteer Graduate of Citizen's Police Academy Completed 2day course on Dismantling Racism---hope there are more

Why are you interested in serving on these boards/ committees?

Charlotte has been my home for 29 years (although five of those were spent in Raleigh) and it's been amazing to see the growth. However, I often find myself feeling like I've done nothing to contribute to its growth but sit back and watch. Although I am consistently finding ways to better my career (and currently in school to receive my MBA), I have chosen to take my strengths and put them to the greater good of the community. While my strongest suits are in communication and marketing, I possess a very keen business sense that has been developed over the past seven years, even helping a company grow from 20 employees to nearly 500.

Please describe any background or abilities that qualify you to serve on these boards/ committees.

- 8+ years in marketing for small and large businesses. - Strong connection to the healthcare market (especially in Charlotte) - 10+ years of motivational speaking and volunteering within various communities, with a focus on low-income and special needs. - Charlotte native (which some might say is hard to find!)

List any boards you are currently serving on:

None for the City of Charlotte. I'm currently serving Lenoir Rhyne's Master of Public Health Advisory Board.

List any boards you have served on in the past:

Why are you interested in serving on these boards/ committees?

I consider myself a creative problem-solver who cares deeply about justice and equity. After having lived in Charlotte for three years, I studied the Charlotte Opportunity Task Force report. I believe that serving on the Community Relations Committee is an opportunity to dive into the complex challenges facing the most vulnerable citizens of Charlotte, and to give back to Charlotte, the city that has warmly welcomed me. I want to make sure that ALL in Charlotte feel safe and welcome.

Please describe any background or abilities that qualify you to serve on these boards/ committees.

I hold a Master of Public Policy in addition to a Master of Public Health from the University of Michigan, and my policy analysis skills and advocacy experience would be an asset to this board. I currently work at the Department of Health and Human Services in Gaston County, so I understand how local governmental agencies operate. I completed the Dismantling Racism (now Racial Equity Workshop) offered by Race Matters for Juvenile Justice in July 2016, and have regularly participated in Catalyzing Change and other RMJJ events. This perspective and training will help me to better engage with issues of discrimination in Charlotte that this board seeks to address.

Why are you interested in serving on these boards/ committees?

As an Indian American female I have had the privilege to grow up in this country, but I was born in India and came here when I was 2. I believe it is vital for our city promote cross cultural exchange and conversation between other faiths and religion because it is education and conversation that leads to citizens not being ignorant about such important topics especially in this time and day. I remember growing up in Connecticut and always being an outsider because back then there was no Indian population and I was different and people were scared off different but if they would have just gotten to know me and and my family we were just like them....going to mcdonalds to eat ..watching Dallas on Friday nights etc.So I can empathize with people from other religions and faiths. I get it.So for me its about being collaborative with our city leaders and churches/temples/sinagogs/gurudwaras's etc..It's to start those difficult conversations that someone has to start but with a smile and an open hand to say I am hear to listen and hear and learn about you. And you never know which door that might open. I can go on and on.. But I will leave it hear..Education leads to less ignorance in society.

Please describe any background or abilities that qualify you to serve on these boards/ committees.

I also am a mentor for CYC (carolina youth coalition) where we prepare high-achieving under resourced students to enter, excel in and graduate from college so they can become full participants of society. Aslo I am an active member of CCPS (Carolina Center for Public Service) which through engagement by service we work together to create a collaborative and interdisciplinary solutions to local and global challenges .

Why are you interested in serving on these boards/ committees?

I am passionate about community service. As a criminal defense attorney, I spend a lot of my time navigating the most vulnerable charlotte city residents through our complicated legal system. This committee deals with many of the outside forces that have an effect on my client's confidence in the city systems that are there to help him/her before, during, and after their criminal matters are resolved. I want to expand my knowledge and service by becoming a part of this committee.

Please describe any background or abilities that qualify you to serve on these boards/ committees.

As previously stated, I am a criminal defense attorney. I began that service at the Mecklenburg County Public Defenders Office for over 6 years. I have also served on the board of directors for the Mecklenburg County Bar Association as well as secretary for the John S. Leary Bar Association. I am a graduate of the Mecklenburg county Bar Leadership Institute. Through my profession, I have been privy to police policies and procedures as well as real life applications of those policies and procedures.

Why are you interested in serving on these boards/ committees?

My participation in the Charlotte Leadership Academy and the CMPD Citizens Academy programs has enlightened me about the need for open-minded and engaged citizens to help Charlotte as it evolves as a large city. The CLA brought to my attention many of the programs that are available to Charlotte residents that can help to increase knowledge about the city, and engagement of its citizens. CMPD Citizens Academy has made me aware of the training the officers receive, as well as the initiatives to increase transparency within the force. I want to be a part of the solution as we work towards building trust between CMPD and the citizens of Charlotte.

Please describe any background or abilities that qualify you to serve on these boards/ committees.

I am a retired NYPD officer with an interest and investment in my community and how we relate with CMPD. This, coupled with the fact that I have participated in the CLS and CMPD Citizens Academy, I have a unique perspective that allows me to see situations from all sides, and not make rash decisions. I am able to listen and observe objectively. Likewise, I am able to ask questions when I need clarification and/or help. I believe that all of these attributes would add value to this very important board.

Why are you interested in serving on these boards/ committees?

As a community organizer, I work with low income people in our city. Many of the people with whom I work are tenants and/or immigrants. Many of these people feel that they do not have a voice or their issues are not being addressed in a manner that takes their needs into consideration. Since I am a community organizer and have access to these citizens our our city, I feel that I may be able to bring their voices to the table. There is also a need to improve on city services (including the landlord/tenant mediation process). Why are you interested in serving on these boards/ committees?

I'm interested in joining these committees, because as a citizen I believe that my civic duty goes beyond voting during every election cycle. In addition, I am a native Charlottean who grew up inspired by family members that served in the armed forces, Charlotte Mecklenburg School board, Minneapolis Office of Police Conduct Review, and the Atlanta Citizen Review Board. In the short time I've been alive, I've seen so much growth in Charlotte too. I've always desired to take part in Charlotte's growth to help continue to make our city better. I believe that becoming a member of the City Of Charlotte's Boards & Commissions will allow me to contribute on a civic level. While I am young too, I believe that my energy and innovative ideas mixed with those who are more experienced (professionally) , and wiser can bring about great things for these committee.

Please describe any background or abilities that qualify you to serve on these boards/ committees.

- 6 years in the small business space consulting business owners on how to grow and make their businesses more sustainable - 9 years freelance entrepreneurial experience - Previously interned for the Charlotte International Cabinet under Alexis Gordon - Conducted an economic development research project under the guidance of the Charlotte Chamber of Commerce, mentored by Keva Walton - UNCG's Bryan School of Business' Dean's Advisory Council

Why are you interested in serving on these boards/ committees?

Diversity is something I preach at all times. It could be diversity in a matter of ethnicity to soci-economic; whatever separates them can definitely make us strong. As you know many racial issues has always been spoken of since I moved here in 1999. We are improving, but can always do better. Therefore, I feel I will be an integral part of this committee where I can listen to other views and continuously seek ways to improve these racial matters.

Please describe any background or abilities that qualify you to serve on these boards/ committees.

I believe I have a vast amount of experience being involved with numerous diverse groups of all types of ethnicity, race, color and creed. As a former military wife who relocated four times over a span of ten years, I quickly learned of diversity and the way the community should evolve while traveling with my husband stateside and aboard. When we returned to the civilian world I discovered many things hadn't improved so that is why I decided to get involved within the community where I reside. I continuously strive to make a difference so all of us can work together as one. I believe that everyone and all their differences matters where we can make this a perfect place to live. With my open mind, experience and education and willingness to learn, I hope this will make me a perfect fit to serve on this board.

Why are you interested in serving on these boards/ committees?

I want to be a part of the solution! Charlotte has seen it's fair share of problems from homelessness, shortage of affordable housing, and gender discrimination issues, and many people voice their concerns for these issues during council meetings but as County Board of Commissioner Vilma Leake's put it, we as citizens have to get involved and be a part of the solution.

Please describe any background or abilities that qualify you to serve on these boards/ committees.

In recent years I have had the opportunity to form relationships with residents of, The Salvation Army Center of Hope. I've listened to countless stories and aided families in their transition to permanent housing and jobs. I work with Raise You Up Ministries in assisting our homeless neighbors and veterans to provide food, clothing, and job resources every 2nd and 4th Saturday of the month. I also am a Domestic Violence Advocate and have served with Atrium Health's DVHP (Domestic Violence Healthcare Project), and I now serve on the Domestic Violence Speakers Bureau with Mecklenburg County Community Support Services.

Why are you interested in serving on these boards/ committees?

I desire to use my law degree to effect change in affordable housing and education. If I work with this committee, I can learn more about Charlotte Mecklenburg County and the best ways to serve the underserved, low-income and disenfranchised individuals.

Please describe any background or abilities that qualify you to serve on these boards/ committees.

I volunteered with Rebuilding Together Philadelphia and helped the Executive Director effectively service underserved homeowners. I have extensive legal knowledge and can use legal research skills to advocate for the less fortunate. I am currently in a clinic course with my law school that focuses on the affordable housing crisis here in Charlotte, NC. The clinic's goal is to support a local agency with a chatbot technology that addresses common affordable housing related questions.
