Plan Consistency

The petition is consistent with overall vision of the *Woodlawn Transit Station Area Plan* recommendation for transit oriented development,.

Rationale for Recommendation

- The proposal is generally consistent with the long-term vision for the transit station area plan to provide a high intensity mix of transit supportive uses within walking distance of the transit station.
- The subject site is less than a ¼ mile walk of the Woodlawn Station on the LYNX Blue Line.
- The proposal allows a site previously used for industrial purposes to be redeveloped with a transit supportive project.

Property south of the site, across Scholtz Road is developed with a brewery.

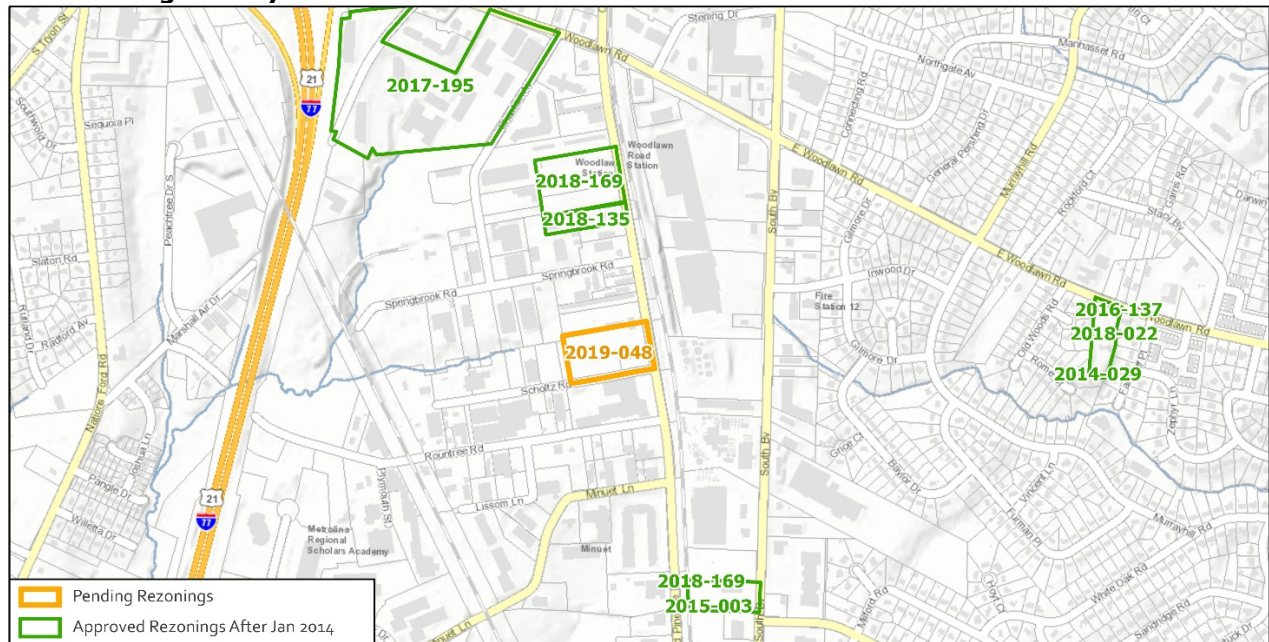

East of the site is the LYNX Blue Line and freight rail lines.

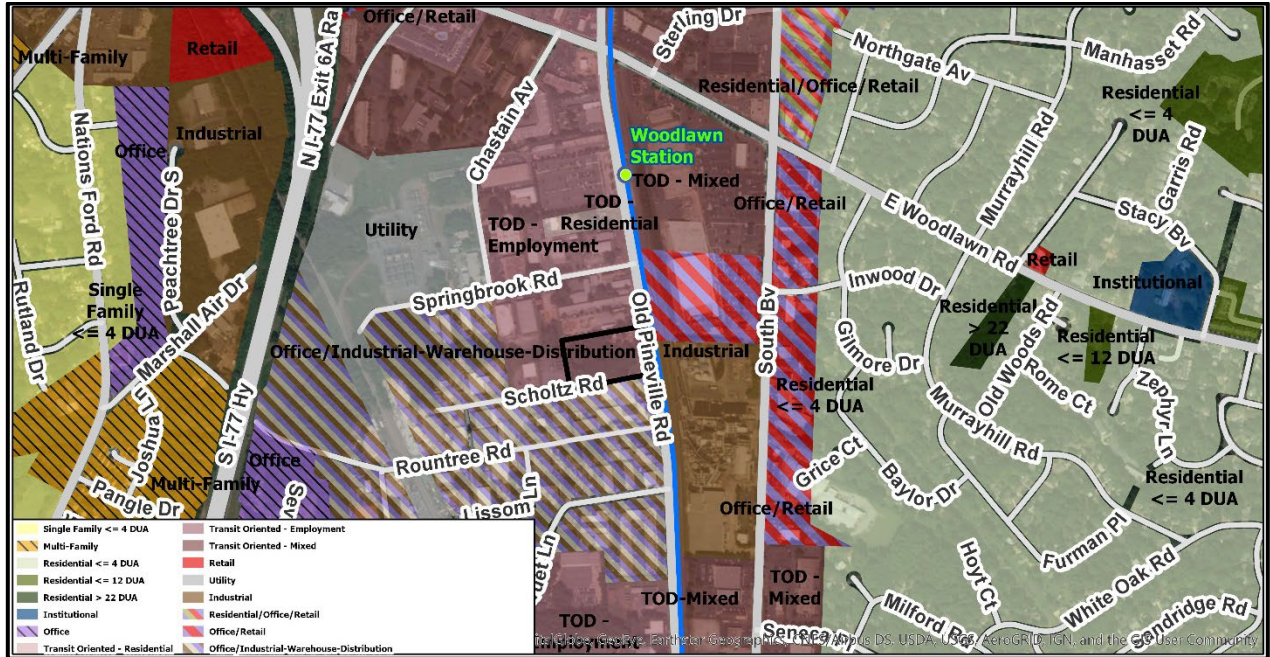

West of the site is parking for nearby warehouse, office and industrial uses.

- **Public Plans and Policies**

- The *Woodlawn Transit Station Area Plan* (2008) recommends employment-focused transit supportive development, for the subject property.

- **TRANSPORTATION CONSIDERATIONS**

- The site is located at the intersection of Old Pineville Road and Scholtz Road in close proximity to Woodlawn Road. CATS Woodlawn Road Blue Line Station is 1/3 mile to the north along Old Pineville Road. The site has existing curb and gutter, back of curb 6-foot sidewalk on the Old Pineville Road frontage. The site does not have curb and gutter, planting strip and sidewalk along the Scholtz Road frontage. CDOT will work with the petitioner during permitting to position the driveway and implement any required streetscape improvements.

- **Vehicle Trip Generation:**

Current Zoning:

Existing Use: 200 trips per day (based on 14,000 square feet of manufacturing).

Entitlement: 130 trips per day (based on 54,000 square foot warehouse).

Proposed Zoning: Too many uses to determine (based on TOD-CC uses).
