## STAFF RECOMMENDATION

Staff recommends approval of this petition upon resolution of outstanding issues related to transportation.

### Plan Consistency

The petition is **inconsistent** with the *Northeast District Plan* (1996) recommendation for industrial uses.

### Rationale for Recommendation

- While the petition is inconsistent with the industrial recommendation in the plan, the NS district being requested provides appropriate uses adjacent to the single family and commercial uses in the area.
- The petition limits use to a restaurant and entertainment use under 4,000 square feet.
- The proposed use is allowed within the site's existing B-2 zoning on the eastern portion of the site.

- The petition commits to enhancing the pedestrian environment through multiple site design elements including a sidewalk connection to the existing adjacent neighborhood, and sidewalk improvements along Statesville Avenue.
- The area between Riley Avenue and Auten Avenue has not developed according to the industrial land use recommendation. Due to the abutting single-family development and zoning, it is unlikely that this site is feasible to develop with industrial uses.
- The intent of the Neighborhood Service District is to provide for uses that directly serve the neighborhood in which they are located.

The approval of this petition will revise the adopted future land use as specified by the *Northeast District Plan*, from industrial use to retail use for the site.

**OUTSTANDING ISSUES**Transportation

1. Revise the site plan and conditional note(s) to commit to implement a local office/commercial narrow street section, including an 8-foot planting strip and 5-foot sidewalk along the site's Auten Avenue frontage (see CLDSM standard detail U-04.16). label and dimension both items from the back of curb and gutter and road centerline.
2. Revise the site plan to add a conditional note specifying dedication and fee simple conveyance of all rights of way on both Statesville Avenue and Auten Avenue to the City before the site's first building certificate of occupancy is issued. CDOT requests right of way set at 2-feet behind back of sidewalk where feasible.
3. Provide a bus waiting pad in location requested by CATS.
