**ZONING COMMITTEE
ACTION/ STATEMENT
OF CONSISTENCY**

The Zoning Committee voted 7-0 to recommend APPROVAL of this petition and adopt the consistency statement as follows:

This petition is found to be consistent with the *Sharon & I-485 Transit Station Area Plan*, based on the information from the staff analysis and the public hearing and because:

- The adopted plan recommends residential at 8 units per acre.

Therefore we find this petition to be reasonable and in the public interest based on information from the staff analysis and the public hearing and because:

- The proposed zoning is consistent with the residential zoning districts in the surrounding area, which include R-4 and R-8 (single family residential) and R-8(CD) (single family residential, conditional) districts.
- All adjacent parcels are currently zoned R-8 or R-8(CD).
- The proposed zoning will help to maintain the low to moderate density residential character of the Sterling neighborhood.
- The site is within ¼ mile walk of the I-485/South Boulevard Transit Station.

**ZONING COMMITTEE
DISCUSSION**

Staff provided a summary of the petition and noted that it is consistent with the adopted area plan.

A commissioner asked why the plan did not recommend transit oriented development (TOD) for the area. Staff explained that the goal of the plan was to recommend a future land use/ zoning that would work to preserve the single family, small lot character of the neighborhood. The single entry point to the neighborhood also was a factor in the plan recommendation.

There was no further discussion of this petition.
