**STAFF
RECOMMENDATION**

Staff recommends approval of this petition.

Plan Consistency

The petition is **consistent** for a portion of the site as per the *Westside Strategic Plan* recommendation for office/business park/industrial land uses, and **inconsistent** with the institutional land use recommendation for the remaining portion of the site.

Rationale for Recommendation

- The proposed industrial use, while inconsistent with a portion of the site recommended for institutional uses, is consistent with the industrial development pattern in the area south of the Airport.
- The site is within an Industrial Activity Center, as per the Centers, Corridors and Wedges Growth Framework.
- The site is within the airport noise overlay, which lends to compatibility with industrial uses over residential uses in the area.

- The Steele Creek Presbyterian Church sanctuary building, and Cemetery are designated as a local historic property by the Charlotte-Mecklenburg County Historic Landmarks Commission.

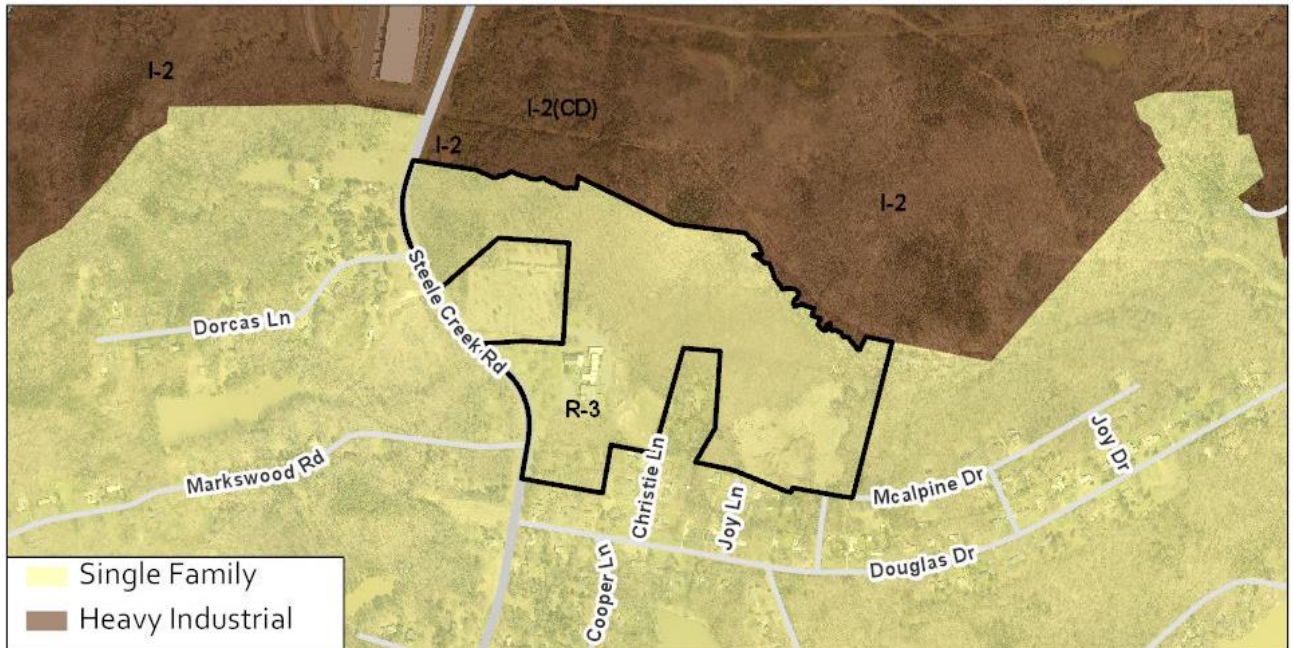

The approval of this petition will revise the adopted future land use recommended by the *Westside Strategic Plan* for a portion of the site from Institutional to Industrial use for the site.
