## STAFF RECOMMENDATION

Staff recommends approval of this petition.

### Plan Consistency

The petition is **consistent** with the residential/office/retail land uses with a pedestrian overlay district recommended as per the *Midtown Morehead Cherry Plan*.

### Rationale for Recommendation

- The proposed rezoning for transit-oriented development, is consistent with the mixed-use land use recommendation.
- The site is within a ¼ mile of the Carson LYNX Blue Line Station.

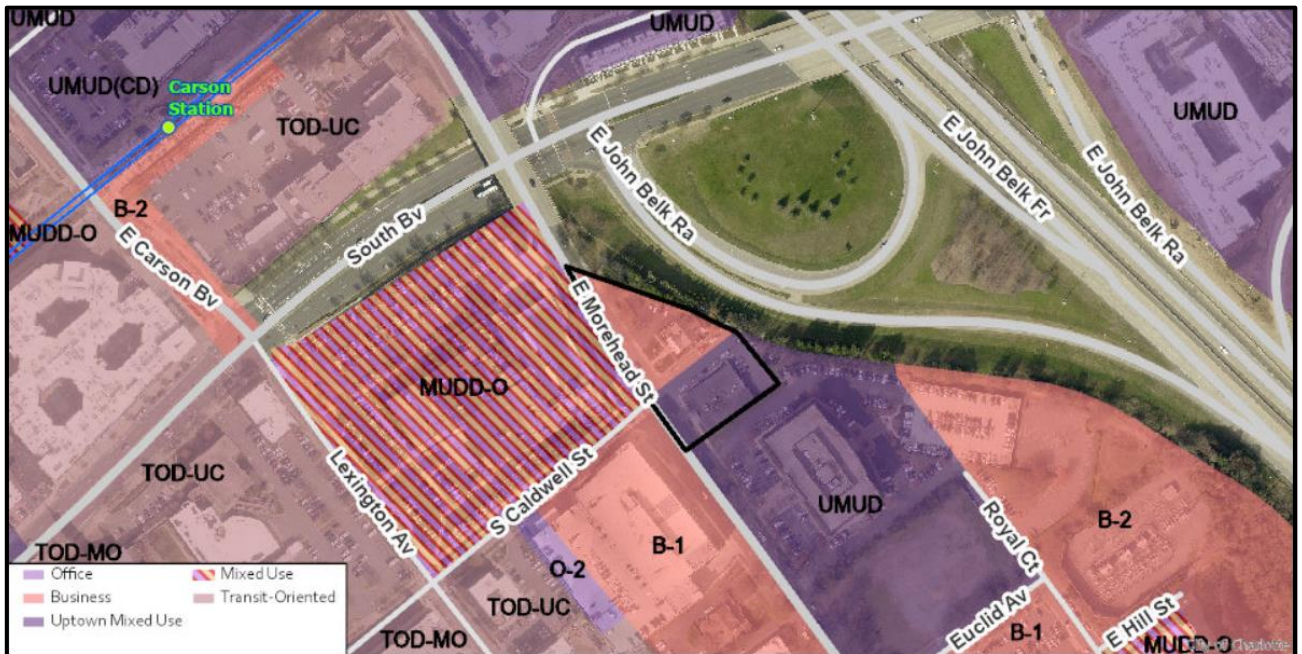

- Use of conventional TOD-UC (transit oriented development – urban center) zoning applies standards and regulations to create the desired form and intensity of transit supportive development, and a conditional rezoning is not necessary.
- TOD (transit oriented development) standards include requirements for appropriate streetscape treatment, building setbacks, street-facing building walls, entrances, and screening.
