STAFF

RECOMMENDATION

Staff recommends approval of this petition upon resolution of outstanding issues related to transportation and environment and technical revisions related to site and building design and environment.

Plan Consistency

The petition is **inconsistent** with the *Dixie Berryhill Strategic Plan's* recommendation for office/retail/light industrial uses.

Rationale for Recommendation

- The proposed conditional site plan prohibits the more intense heavy industrial uses allowed in the I-2 zoning district and allows light industrial uses including office/warehouses.
- Industrial development has been approved recently in the area adjacent to this site. The character of the surrounding area is predominantly industrial.
- The proposed site plan provides adequate buffers with existing residential uses adjacent to the site.
- Running through the site is a heavily used Norfolk Southern railroad line, with a 200 foot right-of-way.

The approval of this petition will revise the adopted future land use as specified by the *Dixie Berryhill Strategic Plan*, from office/retail/light industrial to industrial - heavy use for the site.

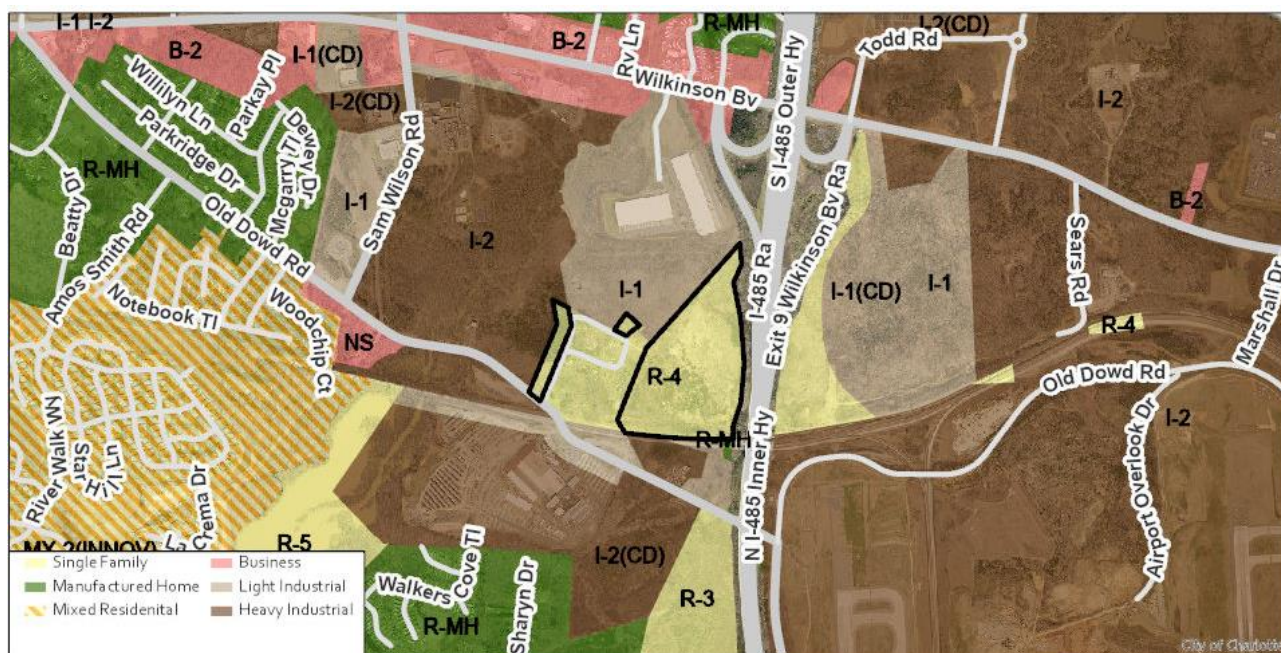

PLANNING STAFF REVIEW

- **Proposed Request Details**

The site plan accompanying this petition contains the following provisions:

- Allows up to 600,000 square feet of I-2 industrial uses with the following uses prohibited:
 - Adult establishment
 - Automobile service stations
 - Automotive repair garages
 - Car washes
 - Dry cleaning and laundry establishments
 - Junk yards
 - Petroleum storage facilities
 - Cemeteries
 - Landfills
 - Quarries
 - Raceway and dragstrips
 - Truck stops
 - Truck terminals
- Includes three separate tracts of land to be included in this rezoning.
- Provides access to the largest parcel included on the rezoning plan from Old Dowd Road through other portions of Parcel 113-031-05A not included in this Rezoning Plan.
- Requires Class A buffers along residential property lines.
- Creates standards for building materials to be used which include: glass, brick, stone, simulated stone, pre-cast stone, pre-cast concrete, synthetic stone, stucco, cementitious siding (such as HardiPlank, panel, shingles, or similar products), metal panels, EIFS, cast on site concrete panel or wood. Vinyl as a building material may only be permitted on windows, soffits, and trim.\

- Existing Zoning and Land Use

The subject property is undeveloped vacant land. The surrounding land uses include single family residential and industrial uses.

The subject properties is undeveloped vacant land located with single family in the middle. The three sites included in the rezoning petition are marked with a red star.

The properties to the north are developed with industrial buildings. The subject property is marked with a red star for the easternmost parcel included on the rezoning plan.

The properties to the south are developed with industrial uses.

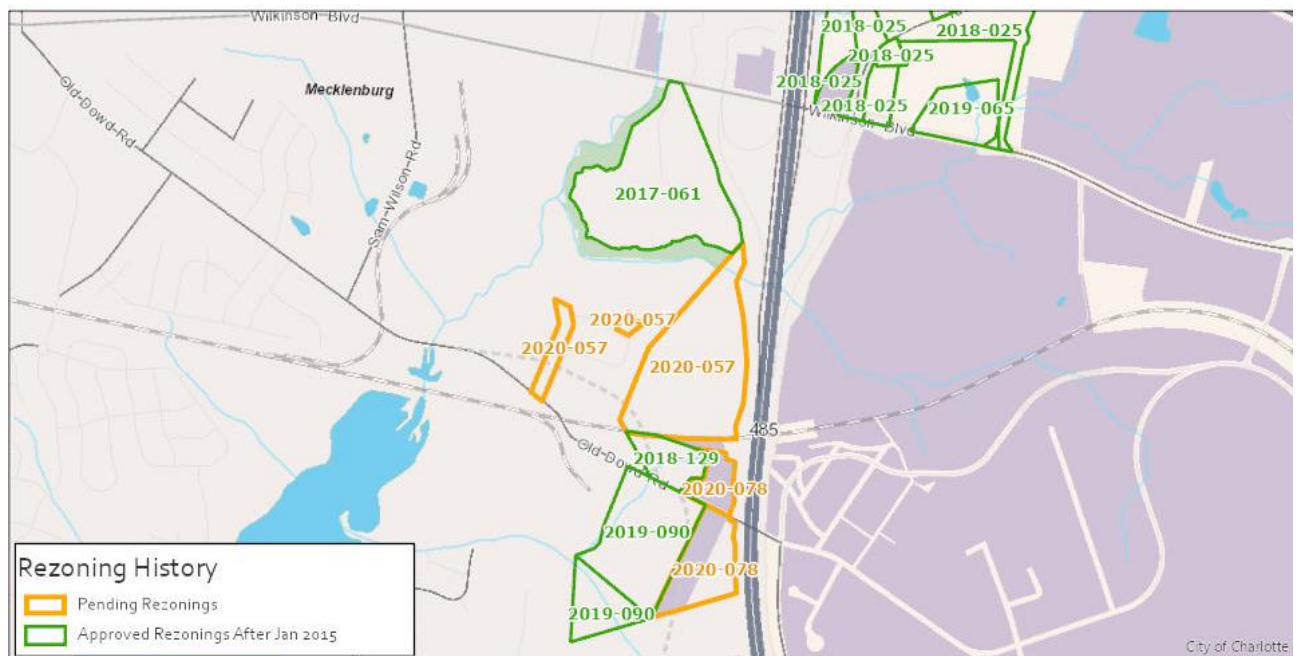

The properties to the west, south, and east are developed with single family residential houses.

The properties to the east are developed with I-485 and then vacant land. The subject property is marked with a red star for the easternmost parcel included on the rezoning plan.

OUTSTANDING ISSUES

Transportation

1. Please remove "This dedication area shall in no way impact the portions of Parcel 113-031-05A not included in this Rezoning Petition" from note III.d.
2. The petitioner should revise the site plan and conditional note(s) to commit to construct an overland connector along the future Paw Creek Greenway on existing Old Dowd Road to meet the City of Charlotte BIKES Policy and Greenway Master Plan.
3. The petitioner should revise the site plan and conditional note(s) to confirm whether the proposed development will consist of one or two buildings, to determine applicability of the Subdivision Ordinance.

Environment

4. MCPR requests the petitioner dedicating and conveying to Mecklenburg County the 100' SWIM Buffers of Tiser Branch and Paw Creek. These creeks are on the MCPR Greenway Master Plan.

REQUESTED TECHNICAL REVISIONS

Site and Building Design

5. Increase the size of buffer along the residential properties that front Barry Oak Circle.
6. The parking/building area is still pretty large and generalized. Please consider locating the building footprints
7. Under note V., please clarify that 100' Class A is the minimum with reductions in areas shown on the plan.
8. Please add watershed information to proposed zoning under the Site Development Data, it should read "Proposed Zoning: I-2(CD) LLWPA LLWCA AIR (general industrial, Lower Lake Wylie Protected Area, Lower Lake Wylie Critical Area, Airport Noise Overlay)".
9. Please revise location map on site plan to reflect the actual zoning boundaries included in this petition.

Environment

10. The rezoning plan sheet indicates a 100-ft SWIM Buffer on site. Please revise buffer label to read "100-ft SWIM/Watershed/PCSO Buffer."
11. Please include the following note under Environmental Features: Development within the SWIM/PCSO Buffer shall be coordinated with and subject to approval by Charlotte-Mecklenburg Storm Water Services and mitigated if required by City ordinance. Stream Delineation Reports are subject to review and approval by Charlotte Storm Water Services.
