**STAFF  
RECOMMENDATION**

Staff recommends approval of this petition upon resolution of the technical revisions related to transportation and stormwater.

Plan Consistency

The petition is **inconsistent** with the *South District Plan* land use policy recommendation for institutional development for this parcel. However, the *General Development Policies* support the requested density of less than or equal to 12 DUA.

Rationale for Recommendation

- The proposal redevelops a parcel with an institutional use (Masonic Lodge) and would not result in the removal of existing homes.
- The *General Development Policies* would support over 17 DUA for the site. However, the petition proposes single family residential attached use with a density limited to 9.68 units per acre.
- The site is located adjacent to existing multi-family residential to the east, developed at 11.74 dwelling units per acre.

- The plan provides buffers adjacent to single family homes, larger than Ordinance minimum setback along the public street, and architectural design requirements that mitigate the projects impact on surrounding single family homes.
- Provides a transition of development intensity between the single family homes to the west and the adjacent multi-family development east of the site.

The approval of this petition will revise the adopted future land use as specified by the *South District Plan*, from single family use to Residential  $\leq 12$  DUA for the site.

The site, indicated by the red star above and shown in the street view (below), is developed with a Masonic Lodge.

There are single family homes to the north across North Sharon Amity Road, to the south along Stafford Circle and to the west on Addison Drive.

There is a multi-family development to the east along Water Oak Drive. Provide caption for street view/birds eye (surrounding land use).
