

Petition 2020-049 by The Keith Corporation

To Approve:

This petition is found to be **inconsistent** with the *Dixie Berryhill Strategic Plan* with respect to proposed land use, based on the information from the staff analysis and the public hearing, and because:

- The plan recommends single family residential uses up to four dwelling units per acre (DUA) for the site.

However, we find this petition to be reasonable and in the public interest, based on the information from the staff analysis and the public hearing, and because:

- The proposed site plan will provide transportation improvements surrounding the site in order to mitigate the traffic impacts this development will have on the area.
- The proposed site plan will provide buffers between the industrial development and adjacent residential neighborhoods.
- Numerous new industrial projects have been developed in the area recently, especially along Wilkinson Boulevard, and Interstate 485 and Sam Wilson Road.
- The location of the site near I-85, Wilkinson Blvd, and the Charlotte-Douglas International Airport provides regional access which makes this site desirable for larger scale industrial development.
- The site is located within a growth corridor, as per the Centers Corridors and Wedges Growth Framework, which encourages industrial development near interchanges.

The approval of this petition will revise the adopted future land use as specified by the *Dixie Berryhill Strategic Plan*, from single family residential up to four DUA, to industrial land use for the site.

To Deny:

This petition is found to be **inconsistent** with the *Dixie Berryhill Strategic Plan* with respect to proposed land use, based on the information from the staff analysis and the public hearing, and because:

- The plan recommends single family residential uses up to four dwelling units per acre (DUA) for the site.

Therefore, we find this petition to not be reasonable and in the public interest based on the information from the staff analysis and the public hearing, and because:
