

Good Afternoon Mayor Gantt & Taiwo,

Thank you for making our final infrastructure series event spectacular on Tuesday. The CLT Alliance would like to submit this statement ahead of this evening's Charlotte Moves Task Force Meeting. Please let me know if you need anything else. Thanks!

We have taken great care to consider the needs of our region and its communities, both now and for the future.

Investing in the city and our region's infrastructure will help our businesses in moving people and products. It will address the critical need to improve economic mobility for residents in our community. This transformational mobility network reflects a comprehensive, data-driven and thoughtful approach. These recommendations have tremendous potential to continue building our region's profile as a world-class market for future business and a leader in equitable economic growth.

The Charlotte Regional Business Alliance supports the work of this dedicated group and supports council adopting these findings.
