**STAFF
RECOMMENDATION**

Staff recommends approval of this petition.

Plan Consistency

The petition is **consistent** with the *Northeast Area Plan's* (2000) recommendation for residential uses up to 12 dwelling units per acre (DUA) for the site.

Rationale for Recommendation

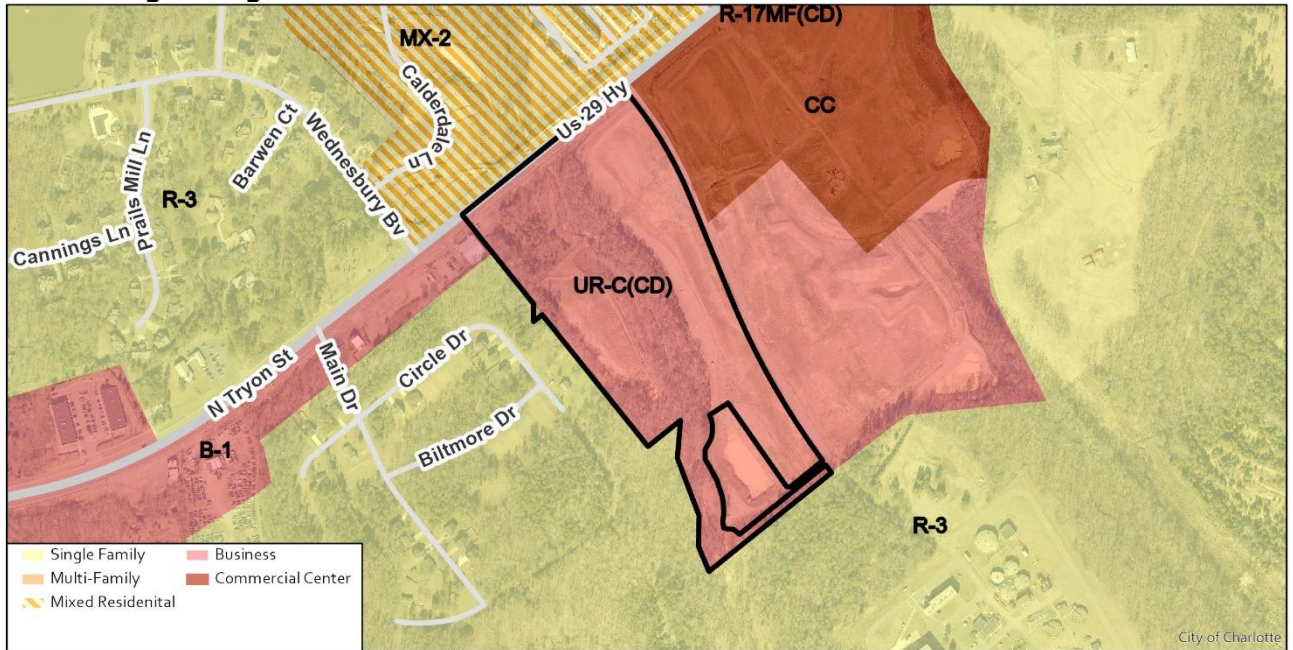

- The request is consistent with the recommended land use per the adopted land use plan for the area.
- The request creates a complimentary density between lower density residential uses to the west and non-residential zoning to the east.

PLANNING STAFF REVIEW

• **Proposed Request Details**

This is a conventional rezoning petition with no associated site plan.

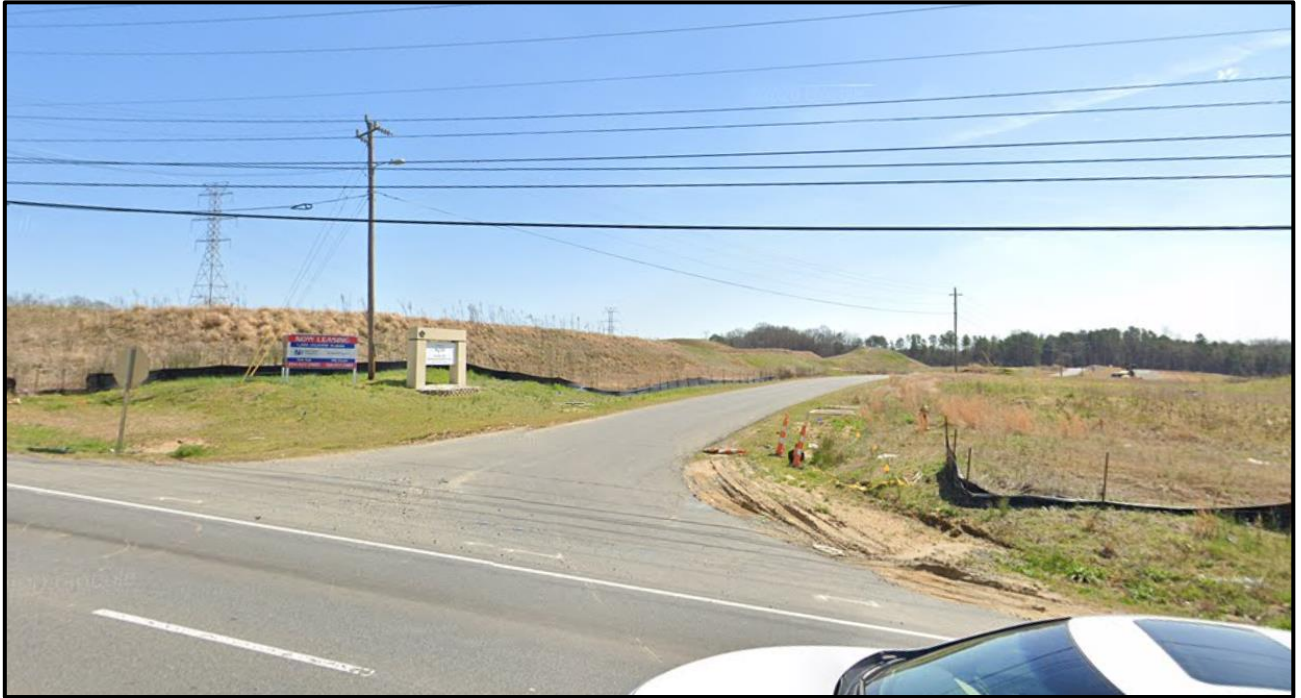

- Existing Zoning and Land Use

The subject property has been rezoned two times in the past 5 years, most recently in 2017 (2017-088) which entitled the site to up to 275 multi-family dwelling units. Residential uses of varying types surround the site while the Mallard Creek water treatment plant is directly SE of the site.

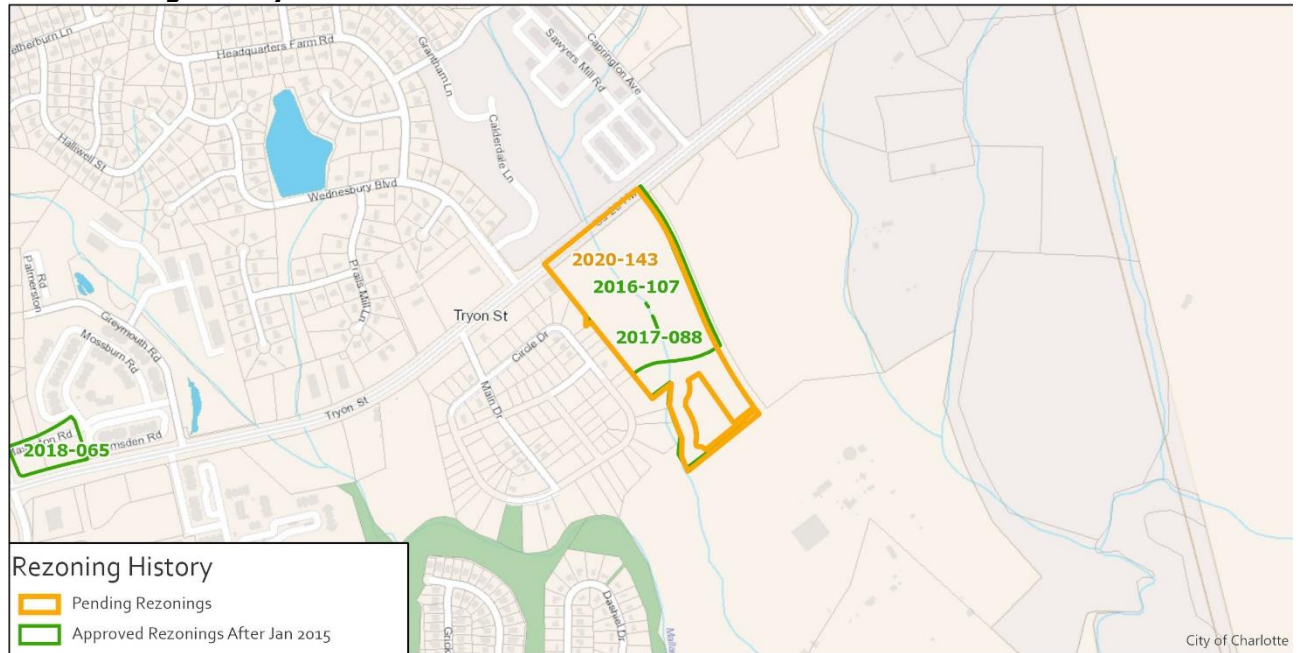

General location of subject property denoted by red star.

- Rezoning History in Area**

Petition Number	Summary of Petition	Status
2018-065	SPA for petition 2007-047 to allow gas stations and drive-through accessory windows.	Approved
2017-088	Request for SPA to amend site layout and eliminate non-residential uses permitted by 2016-107 (below).	Approved
2016-107	Request to permit up to 275 multi-family dwelling units.	Approved

- **Public Plans and Policies**

- The *Northeast Area Plan* (2000) recommends residential uses up to 12 DUA for the site.
- **TRANSPORTATION SUMMARY**
 - The site is located on a major thoroughfare road (Tryon Street). A Traffic Impact Study (TIS) is not needed for this site. This site was previously rezoned under petition 2017-088, which included a commitment to construct a multi-use path and trailhead for the future Cross-Charlotte Trail. General Services and Charlotte Water have coordinated a trail connection as shown below. City staff will continue coordination during the permitting process to plan the Cross-Charlotte Trail. NCDOT may require Charlotte Water to gain access at the existing gravel driveway along Tryon Street. CDOT will coordinate with Charlotte Water to consider installing a 12-ft multi-use path during permitting.
