**STAFF
RECOMMENDATION**

Staff recommends approval of this petition.

Plan Consistency

The petition is **consistent** with the residential land use recommended for this site as per the *Catawba Area Plan*, but it is **inconsistent** with the density recommendation of 12 dwelling units per acre.

Rationale for Recommendation

- The proposed residential land use is consistent with the land use recommendation as per the *Catawba Area Plan*.
- The portion of the site along Mount Holly Road is already zoned for multi-family land uses at R-17MF.

- The site is located at the interchange of Interstate 485 and Mount Holly Road, adjacent to a future neighborhood serving retail center, which would support a higher density multi-family residential development.

The approval of this petition will revise the adopted future land use as specified by the *Catawba Area Plan*, from residential up to 12 DUA to residential up to 17 DUA land use for the site.
