Report available online. Number of people attending the Community Meeting: 0 STAFF Staff recommends approval of the petition upon resolution of RECOMMENDATION technical revisions to site and building design. Plan Consistency

The petition is **consistent** with the *Charlotte Center City 2020 Vision Plan (2011)*. While this plan does not make a specific land use recommendation for the site, it encourages future development contribute to the overall viability and livability of Center City.

The petition proposes optional provisions to deviate from the sign

Rationale for Recommendation

- The petition proposes an optional request to allow signs to be mounted to building curtain walls/windows for an uptown building under construction.
- The proposed signage will accommodate an additional identifying element for a major structure in uptown.

• The proposed signage will blend with the overall architecture of the building and will not obstruct internal views for the signs proposed on the glass surfaces.

# PLANNING STAFF REVIEW

#### • Proposed Request Details

The site plan accompanying this petition contains the following provisions:

- Proposes the following optional provision:
  - Allow the following wall sign building areas on the building parapet, locations of which as generally depicted on the Rezoning Plan: a total of four (4) signs with a sign area of 350 square feet each, totaling a maximum 1,400 square feet between the four (4) parapet signs. All other signage shall conform to UMUD zoning district standards and not be included in this square footage calculation.
  - Allow parapet signs to be mounted to building curtain walls/windows, where generally depicted on the Rezoning Plan.
  - To allow the following wall sign building areas, locations of which as generally depicted on the Rezoning Plan: a total of four (4) signs with a sign area of 350 square feet each, totaling a maximum 1,400 square feet between the four (4) signs. All other signage shall conform to UMUD zoning district standards and not be included in this square footage calculation.
  - To allow signs to be mounted to building curtain walls/windows, where generally depicted on the Rezoning Plan. The signage will consist of individual aluminum, face-lit channel letters attached to a raceway which in turn is mounted to and supported by the building's curtain wall system. The raceway will be painted to match the mullions of the curtainwall system. The channel letters will have day/night vinyl facing which will allow the letters to read as a color during the day and white when illuminated at night. Signage shall not cover windows within eight (8) vertical feet from finished floor.
- Building elevations depicting the proposed signage locations.

#### • Public Plans and Policies

• The Charlotte Center City 2020 Vision Plan (2011) does not make a specific land use recommendation for this site. However, the plan encourages future development that will contribute to the overall viability and livability of Center City. The plan recognizes Center City as the central economic engine and diversified employment hub of the region and encourages enhancement of the pedestrian environment through use of visual improvements as one means to identify, support, and retain retail and business activities.

## TRANSPORTATION SUMMARY

• The site is located on a major thoroughfare road [Mint Street]. The review of this rezoning petition is focused on the installation of a sign; site characteristics typically reviewed by CDOT are not proposed to change. Due to the nature of this petition, there are no comments provided by CDOT at this time as all site improvements were installed during initial development of this project in 2016 (LDUUMUDD-2016-00080). CDOT staff will again review the site plan during the permitting process and work on any transportation issues as they arise.

#### **OUTSTANDING ISSUES**

Site and Building Design

- Remove the optional requests on the site plan and replace with the following optional request: To allow a total of four (4) skyline signs to be mounted on building curtain walls, where generally depicted on the Rezoning Plan. All other signs shall conform to signage standards in the Zoning Ordinance and are not be included in this square footage calculation. Staff request revised as listed below in Requested Technical Revisions.
- 2. Staff does not support the proposed signs covering windows. Concerns addressed with additional graphic information presented

## **REQUESTED TECHNICAL REVISIONS**

#### Site and Building Design

- 3. Please revise optional provisions to replace references to wall signs with skyline signs and clarify that the request is for skyline signs to cover fenestration as depicted on the site plan.
- 4. Please revise optional provisions to reflect any provisions needed to address deviations for the proposed roof signs.
