**STAFF
RECOMMENDATION**

Staff recommends approval of this petition.

Plan Consistency

The petition is **inconsistent** with the *Northeast District Plan (1996)* recommendation of single family uses up to 4 dwelling units per acre.

Rationale for Recommendation

- This petition proposes a warehouse addition and nine additional parking spaces as an expansion of an already-existing business located on the parcel directly below this site.
- This site had been used as overflow parking for the adjacent auto parts business, but after the widening of Statesville Road the parking lot did not meet zoning requirements in its current form. This petition will formalize the parking spaces and bring the site up to current zoning code.

- The site will add a 22-foot class B buffer and tree save area between the site and the surrounding single-family homes and add a 5-foot sidewalk connecting the sidewalk on Statesville Road to the new warehouse addition and parking lot.
- The existing auto parts business on the adjacent site and the parking lot was recognized by the *Northeast District Plan (1996)* even though the plan recommends single family residential uses for this site, and the site use is currently not out of character with the commercial sites across the street.
- Adding a parking lot and warehouse space along with appropriate buffers will make the site safer for the surrounding residents and for pedestrians.

The approval of this petition will revise the adopted future land use as specified by the *Northeast District Plan*, **from Single-family Residential up to 4 DUA to General Business** for the site.

- Public Plans and Policies**

- The *Northeast District Plan* (1996) calls for Single-family uses up to 4 DUA for the site.

- **TRANSPORTATION SUMMARY**

- The site is located on a major thoroughfare road (Statesville Road). The trip generation is the same for the proposed and entitlement land uses (see trip generation table). The petitioner has committed to installing 8-foot planting strip and 6-foot sidewalk along Statesville Road. CDOT recommends for the petitioner to coordinate with Urban Forestry to identify the appropriate locations for sidewalk placement to preserve existing trees. The sidewalk may meander outside of the public right-of-way to preserve existing trees, to be dedicated within a sidewalk-utility-easement (SUE). All CDOT items are addressed.
