**STAFF
RECOMMENDATION**

Staff recommends approval of this petition.

Plan Consistency

The petition's request for 8 dwellings per acre (DUA) is **inconsistent** with the *Central District Plan's* (1993) recommendation for single family uses up to four DUA for the site. However, it is **consistent** with General Development Policy's (GDP) recommendation for six to eight DUA.

Rationale for Recommendation

- While over the Central District Plan's recommended density, the petition meets GDP's locational criteria for consideration of six to eight DUA.
- The requested density is reasonable as the parcel is near existing neighborhood amenities (less than .3 miles from Cordelia Park and .1 mile from a school).
- The request aligns with the Central District Plan's policy recommendation of promoting "more urban scale infill"

development...". The R-8 district's intent is to address "urban single family living."

The approval of this petition will revise the adopted future land use as specified by the *Central District Plan*, from single family uses up to four DUA to residential uses up to eight DUA.

• TRANSPORTATION SUMMARY

- The site is located on a City-maintained minor collector road (Parson Street). This site is going from an existing trip generation of 10 vehicle trips per day, to a proposed total of 20 vehicle trips/day. This site is within the East Wedge with no active projects nearby. As this is a conventional rezoning, during permitting, CDOT will coordinate with the petitioner to include infrastructure in accordance with the City's Ordinances, Area Plans, and Policies as applicable. CDOT has no outstanding items with this petition.
