STAFF RECOMMENDATION

Staff recommends approval of this petition.

Plan Consistency

The petition is **consistent** with the *New Bern Station Area Plan* (2008) recommendation for transit-mixed use.

Rationale for Recommendation

- The site is within a ½-mile walk of the proposed Rampart Station.
- The TOD-UC district may be applied to parcels within a ½-mile walking distance of an existing rapid transit station, or within ½ mile walking distance of an adopted Metropolitan Transit Commission (MTC) alignment station location.
- The proposal allows a site that was previously used for auto-repair commercial uses to be redeveloped with a transit supportive project.

- The parcels were rezoned from I-2 to TOD-NC as part of petition 2019-102.
- The use of conventional TOD-UC zoning applies standards and regulations to create the desired form and intensity of transit supportive development, and a conditional rezoning is not necessary.
- TOD standards include requirements for appropriate streetscape treatment, building setbacks, street-facing building walls, entrances, and screening.

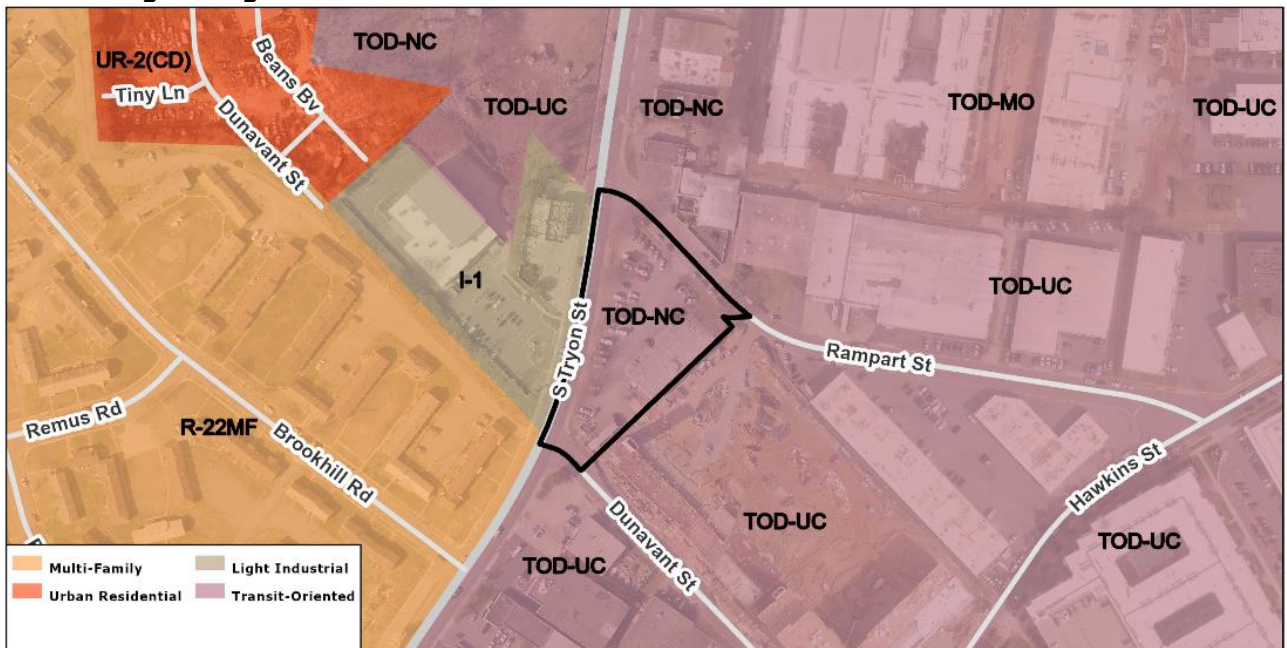

PLANNING STAFF REVIEW

• Proposed Request Details

This is a conventional rezoning petition with no associated site plan.

- Allows all uses in the TOD-UC (transit oriented development – urban center) zoning district.

• Existing Zoning and Land Use

- The parcel was rezoned in 2019 to TOD-NC as part of 1,771.18 acres rezoned from a range of zoning districts to TOD-UC, TOD-NC, TOD-CC, or TOD-TR.

- The site (red star above) is in an area with a number of uses including retail, multi-family residential, warehouse/distribution, and office uses.

- North of the site are retail uses

- West of the site is a gas station and warehouse uses.

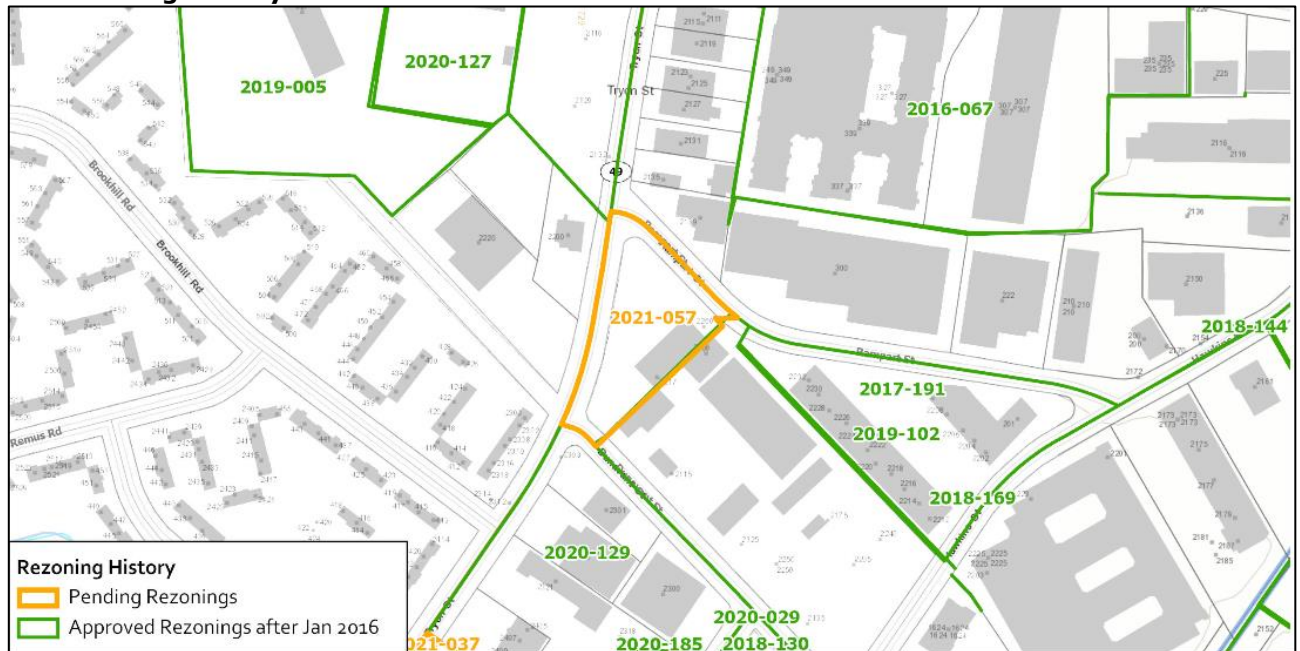

- South of the site are office uses.

- East of the site is a multi-family residential development.
